

ADmits STOCK
WAS WATEREDW. B. Thomas Before Sugar In-
vestigating Committee.

COMPETITION IS INCREASING

Chairman of the Board of Directors of the American Sugar Refining Company Asserts That Efforts to Control the Business Had Been a Complete Failure and Each Year His Company's Share Is Decreasing.

New York, July 20.—Although the minutes of the meeting of the board of directors of the American Sugar Refining Company show that Washington B. Thomas, the present chairman of the board, was elected a member of a special committee with H. O. Havemeyer and Mr. Senff to acquire beet sugar refineries Mr. Thomas told the special congressional committee investigating the so called "sugar trust" that he knew nothing about it until he read it in the government report at Washington a few weeks ago.

Mr. Thomas also told of his financial interest in the American Sugar Refining company. His stock, he said, amounted to about 3,000 shares, with a book value of about \$375,000, and the holdings of the members of his family, including his own, are between 15,000 to 20,000 shares, with a value of between \$1,600,000 and \$2,000,000.

Mr. Havemeyer, when he died, had only about 135 shares of stock, but for many years had thoroughly dominated the company, the witness said. Mr. Thomas asserted that the \$90,000,000 stock of the company was represented by real property, with a book value of \$132 for every \$100 share of stock.

Declines to Accept Book Value.

Chairman Hardwick said he would not accept the company's book value as correct.

It was intimated the committee would endeavor to arrive at such a valuation by the employment of experts to appraise the value of the property.

Mr. Thomas admitted that he had no knowledge of any smaller company making active war on the American in the last twenty years, excepting the Arbuckles, but he would not admit that the American controlled the price.

Mr. Thomas insisted the American did not control the Great Western Beet Sugar company of Colorado, but Mr. Malby brought out that with the holdings of the Havemeyer estate they controlled about two-thirds of that company. The American, said Mr. Thomas, also holds 50 per cent of the Spreckels interests in California.

Mr. Thomas said that any effort to control the sugar business had been a complete failure. Competition had been constantly increasing and each year the American's share of this country's business is decreasing.

Reads From the Minutes.

Representative Raker read from the minutes of the board of directors for the meeting Aug. 26, 1891, a passage saying that the "president reports that because of the decreased consumption of refined sugars it might be necessary to reduce the output so as to maintain the price."

Mr. Raker asked Mr. Thomas if the company had ever changed that policy. Mr. Thomas said he never knew that that had been the policy of the company and would not answer the question otherwise.

In reply to Representative Madison Mr. Thomas went into the formation of the original trust.

"The refineries composing the first company were capitalized at \$5,500,000 and were given \$50,000,000 of sugar trust stock for their properties, were they not?"

"I believe so."

"That was a lot of moisture, was it not?"

"I guess so."

"Do you not know that much of the stock is now watered?"

Mr. Thomas admitted that this might be true.

ANOTHER CHOLERA VICTIM

Seventh Death Occurs at Swinburne Island Hospital.

New York, July 20.—Another death from Asiatic cholera occurred at the Swinburne island hospital of the New York quarantine station. The victim was Giuseppe Pettinico, thirty-two years old, who arrived here on the steamer Moltke.

Notwithstanding this additional death, making the count seven at this point, Health Officer Alvah H. Dory issued a statement in which he said the situation was satisfactory. No further cases of the disease have developed among the detained immigrants.

How Wheat Came to Earth.

A classic account of the distribution of wheat over the primeval world shows that Ceres, having taught her favorite, Triptolemus, the art of agriculture and the science of breadmaking, gave him her chariot, a celestial vehicle, and that in it he traveled night and day, distributing this valuable bread grain among all nations of the earth.

JOHN B. JACKSON.

Minister Assures Cubans This
Country Will Not Intervene.

NO CUBAN INTERVENTION

United States Gives Assurance to
Island Government.

Havana, July 20.—Rumors which have been current recently that the American government was considering another intervention in Cuba were dispelled when the American minister, John B. Jackson, visited Senor Sanguily, the Cuban secretary of state, and delivered a message from Mr. Knox, the American secretary of state, in which the secretary declared that the American government had not the least intention of intervention.

Senor Sanguily expressed his warm appreciation and said he was convinced that nothing would disturb the present friendly and intimate relations between the two countries.

FEDERAL CONTROL
OF CORPORATIONSAttorney General Favors Plan in
Address at Duluth.

Duluth, July 20.—Control of corporations by a federal commission instead of the present method wherein varying state laws make difficult obedience to the law was urged by Attorney General George W. Wickersham in his address before the Minnesota State Bar association.

Mr. Wickersham pointed out the difficulties of the problem. He declared more regulation is necessary. He was not ready to say that the federal commission, for which he argued, should be given control over prices, although he pointed out that there is little difference between regulation of transportation charges and a reasonable supervision of commodity prices.

The laws of supply and demand, he declared, do not fix the price of stable articles in the United States. Those prices have been fixed too long by agreement of the producers, he said, leading him to the conclusion that in theory the creation of a federal commission to regulate prices is advisable, but that practical obstacles in the way of such procedure practically are insurmountable.

The attorney general declared himself in favor of federal incorporation as a step necessary to control the monopoly evil. He argued against incorporate stock holdings whereby one company is able to own a controlling interest in another and asserted that with federal incorporation and supervision business affairs could be conducted to the benefit of the public and the satisfaction of the commercial world.

BONES FROM MAINE WRECK

Coral Encrusted Fragments Believed
to Represent Three Bodies.

Havana, July 20.—Fragments of bones believed to represent three bodies were recovered from the wreck of the Maine. The discovery was made in a pile of mud and rubbish on the main deck, almost directly beneath an inverted conning tower, which had been upset and hurled sixty feet aft from its original position, and close to the spot where the bones of a foot encased in a shoe and other fragments were found several weeks ago.

The bones are discolored and coral encrusted and unless possibly the teeth afford some clue they will be listed among the unknown. All were taken in charge by the official undertaker.

Probably the last of the water surrounding the wreck will be pumped out in a day or two.

CANADA FACING FUEL FAMINE

Strike May Cause Suffering in West
ern Part of Dominion.

Winnipeg, July 20.—The fuel situation in Western Canada daily is becoming more alarming and a serious coal and wood famine becomes more probable each day because of delay in the settlement of the coal strike in Alberta and Eastern British Columbia, on since April.

Many cities, towns and villages are studying the situation closely, for a fuel famine will mean much suffering during the coming winter.

These mines in which the men are on a strike supplied a vast territory with coal. Dealers here have only small stocks of coal and are continually urging the railroads to ship their coal forward to meet current demands.

No Annoyance.

The wife of a very irritable landlord in Ireland once received a letter from a disaffected tenant warning her that her husband would certainly be shot, but that nothing would be done to injure or annoy her in the least.—London Telegraph.

650,690 Stricken by Plague.

London, July 20.—Deaths from the plague in India have reached the enormous total of 650,690 for the half year ended on June 30.

BACON FOUGHT
AT BULL RUN.Georgia Senator Says He Re-
members Battle Well.

ANNIVERSARY IS CELEBRATED.

Veterans of Both Armies Participated in the Exercises—No One Can Tell What Is Likely to Happen Any Day in the Senate—Clash Between Bailey and Williams Comes Unexpectedly.

By ARTHUR W. DUNN.

Washington, July 20.—[Special.]—July 21 is the fiftieth anniversary of the battle of Bull Run. That battle is particularly interesting to such residents of Washington as remember it, for it seemed likely that the defeat of the Union forces so close to Washington might mean the capture of the national capital by the Confederates.

The battle is more interesting to Senator Bacon of Georgia than any other man now in public life, for he was a boy soldier at the time, and he is one of the few men of prominence in public life who took part in the engagement. Senator Bacon says he recollects the events of that day much more vividly than he does many things which have happened since. He can now describe the battle with as much accuracy as the historians and with much more interest, for he tells what he saw and the impression it made upon him at the time.

Veterans of both the Union and Confederate armies made arrangements to participate in the ceremonies of the fiftieth anniversary. That the animosities are forgotten is apparent when both sides unite to celebrate the event.

A Way of the Senate.

No one can tell what is going to happen in the senate. Senator Sutherland announced a speech on the Arizona constitution, and everybody expected a dull and dry constitutional argument. It turned out to be the most brilliant speech of the session.

Then it was expected that the balance of the day would be devoted to time killing talk on the reciprocity bill, but the promised clash between Senator Bailey and John Sharp Williams enveloped the senate and the few spectators who remained in the heated chamber. We knew that at some time these brilliant southerners would cross swords, but it was unexpected because it was believed that it would occur when the wool bill was considered.

Those Paddle Fans.

Paddle fans, such as are seen in cheap restaurants, disfigure the symmetry of the senate chamber and disturb the hot air which accumulates under the skylight.

"Those fans would never have been allowed if Eugene Hale was a member of the senate," was the remark of an old employee who was thoroughly acquainted with Hale's peculiarities. A curious feature of the fanning process is that the heated and vitiated air is driven down from above for the senators to breathe over and over again.

Kidnaping a President.

In a colloquy between Senator Gronna and Senator Reed the North Dakota senator, being pressed to say what President Taft would do with the reciprocity bill in case it was amended, said: "It is unfair to ask me a question of this kind, for I had almost come to the conclusion that the Democratic party had kidnaped our president."

"When the Democracy start out kidnaping presidents they will pick one for themselves," retorted the Missouri senator.

As the Record Reads.

The morning papers announced that there had been a most entertaining debate between Senator Bailey of Texas and Senator Williams of Mississippi, in which each tried to read the other out of the party and that each claimed to represent Simon pure Democracy. It lasted until long after 7 o'clock in the evening. Those who were not in the senate turned to the Congressional Record to read the interesting discussion, and this is what they found:

Mr. Bailey addressed the senate. His speech will be published hereafter.

Mr. Williams addressed the senate. His speech will be published hereafter.

Mr. Bailey addressed the senate. His speech will be published hereafter.

Mr. Williams addressed the senate. His speech will be published hereafter.

LEE DE FOREST.

Wireless Inventor Blames His
Mother-in-Law for Divorce Suit.

BLAMES HIS MOTHER-IN-LAW

Lee De Forest, Wireless Inventor, Is
Sued for Divorce.

San Francisco, July 20.—Harriet Stanton Blatch of New York, suffragist leader and daughter of Elizabeth Cady Stanton, is declared by her son-in-law, Dr. Lee De Forest, scientist and wireless inventor, to be responsible for the suit for absolute divorce filed here against Mrs. Nora Stanton Blatch De Forest. The suit follows a suit for separation filed by Mrs. De Forest at Shoreham, L. I., June 17.

GRAND JURY INDICTS
WALL PAPER MENTrue Bills Allege Conspiracy in
Restraint of Trade.

Cleveland, July 20.—Four indictments were returned by the federal grand jury which has been investigating an alleged wall paper trust. The indictments charge a conspiracy in restraint of trade under the provisions of the Sherman anti-trust law. The indicted parties are all officials of wall paper jobbing houses. They are J. B. Pearce, president of the J. B. Pearce Wall Paper company of Cleveland, Norton Newcomb of St. Louis, Edward E. Maxwell of Chicago and C. C. Aler of Columbus, O. Bond was fixed at \$500 in each case.

The specific charge against the indicted men is that they met in Cleveland on May 30, 1910, and after a secret session notified wall paper manufacturers of the country that if they sold wall paper to 5 and 10 cent stores the jobbers would boycott the manufacturers.

ALDRICH READY TO APPEAR

Former Senator Will Testify Before
Lorimer Committee.

Washington, July 20.—Whether the Taft administration wanted Lorimer elected to succeed Hopkins as Illinois senator, and whether former Senator Aldrich of Rhode Island, then the Republican senate leader, was the means through which that wish was conveyed to Edward Hines, the lumber man, probably will be developed. Mr. Aldrich arrived in Washington and is ready to appear before the Lorimer committee at once to explain his alleged activities in connection with the Illinois senatorial election.

Hines has testified that he waited until midnight at the Washington home of Senator Aldrich while the latter at the White House talked over the Illinois senatorial deadlock with President Taft. At the conclusion of the conference Hines said he was told by Aldrich that the president wanted Lorimer elected.

Following Hines' testimony a statement of the president's attitude toward the Illinois election contrary to the impression created by Hines was issued from the White House. The testimony of Aldrich has been awaited with much interest.

Dr. George L. Andrew Dead.

La Porte, Ind., July 20.—Dr. George L. Andrew, said to be the last member of the sanitary commission during the Civil war, editor of the government paper, the Sanitary Record, and at one time house physician at Bellevue hospital, New York city, died here, aged eighty-nine years. He was born in Hamilton, O.

PEAVEY REPORT WEDNESDAY

Creditors Will Receive Statement of
Company's Finances.

Chicago, July 20.—Creditors of F. H. Peavey & Co., whose assets are now being held by a joint committee of Chicago and Minneapolis bankers, will receive a statement of the company's finances by next Wednesday, according to the announcement made here.

Work on the accounts is being rushed in order that the committee may have substantial basis upon which to work in extending the \$2,050,000 loans of the concern which mature Aug. 1.

VETO MEASURE
WILL PASS LORDS

ASSASSIN KILLED BY POSSE

Not Until He Wounds a Farmer Who
Had Discharged Him.

St. Joseph, Mo., July 20.—Surrounded by a posse of officers and farmers, eight miles north of town, Louis Legatta, sought on charges of arson and attempted murder, refused to surrender and was riddled with bullets and buckshot. Just as the volley crashed out Legatta discharged a shotgun, the load hitting W. T. Kirtley, whose life he attempted two nights in succession. Kirtley's wounds are not dangerous.

Kirtley is manager of a stock farm and discharged Legatta early in the week. For two nights Legatta and a companion skulked about the farm firing haystacks in order to bring Kirtley from his home.

MINERS' CHIEF RAPS COURT

Says Labor May Soon Be Judged on
"Reasonable" Basis.

Butte, Mont., July 20.—President Charles Moyer's annual report to the Western Federation of Miners urged participation in politics as a body, favored the recall of judges and, citing the supreme court decisions in the tobacco and Standard Oil cases, declared it is only a question of time when the courts will bring labor unions under the Sherman anti-trust act and that the labor movement's legal status then will hang on judges' opinions whether they are "reasonable" or not.

President Moyer recommended consideration of a plan to raise a giant fund and enter the mine operating field.

Woman Is Auto Victim.

Willmar, Minn., July 20.—Mrs. C. W. Carlson of Carpenter, S. D., is dead and her husband is seriously injured as the result of an automobile accident near this city in which the machine backed over an embankment, throwing the occupants into a tree from which they were suspended.

Peers May Also Accept Bill When
Shorn of Amendments.

COMMONS WILL ACT QUICKLY

Next Monday the Prime Minister Will Move the Exclusion of the Lords' Amendments and Is Expected to Make an Important Pronouncement on the Ministerial Intentions—Many New Peers May Be Created.

London, July 20.—The Daily Telegraph, a staunch Unionist, in an editorial says not only that the house of lords will pass the third reading of the veto bill without division, but that when the government bill is returned to the upper chamber snored of the lords' amendments they will pass that also, for the simple reason that "there really is no practicable choice," and because it would form an evil and dangerous precedent to bring the crown into the struggle and it would be impossible for the king to withhold his consent if the ministers requested the creation of peers.

Practically the whole Unionist press has now fallen into line with the Telegraph in the admission that this is the only reasonable policy for the lords to follow and that the no surrender policy would be suicidal.

Long meetings of the cabinet and also the Unionist leaders, including Balfour and Lansdowne, Selborne, Curzon, Salisbury and others, were held for the purpose of making final arrangements for the coming debates.

Premier Asquith has postponed his intended visit to Scotland on account of the crisis and urgent whips have been issued to all parties for Monday's sitting of the house of commons. On that date the prime minister will move the exclusion of the lords' amendments and is expected to make an important pronouncement on the ministerial intentions.

According to persistent reports whatever happens fifty new peers will be created before the bill is sent back to the lords as an earnest of the government's intentions should the peers still display a disposition to be obdurate.

It is explained that the present government has created fewer than the customary number of peers in recent years and that, therefore, the creation of fifty now would little more than restore the balance.

That the creation of peers may yet be necessary is indicated by an editorial in the Morning Post, which still counsels a firm policy of no surrender.

FARM STOCK SHOWS GAIN

North Dakota Census Returns on Ani-
mals, Poultry and Bees.

Washington, July 20.—Statistics relative to the domestic animals, poultry and bees reported on farms and ranges for the state of North Dakota at the thirteenth decennial census, April 15, 1910, are contained in an official statement issued by Acting Director Falkner.

The aggregate value of all domestic animals, poultry and bees in 1910 as reported was about \$108,194,000, as compared with \$42,430,000 in 1900; the amount of increase being \$65,764,000, and the rate 155 per cent.

The total value of the domestic animals was reported as \$106,706,000 in 1910, as against \$41,952,000 in 1900; the increase amounting to \$64,754,000, or 154.4 per cent.

The poultry was valued at \$1,485,000 in 1910, as compared with \$477,000 in 1900; the gain being \$1,008,000, or 211.2 per cent.

The bees were valued at \$3,086 in 1910, and \$1,474 in 1900; the increase amounting to \$1,612, or 109.4 per cent.

WISCONSIN WARDEN QUILTS

Prison Official Resigns When Probe
Is About to Begin.

Fond du Lac, Wis., July 20.—By tendering his resignation to take effect immediately, thirty minutes before the state board of control was slated to begin a general investigation of charges preferred against the management of the state prison at Waupun, Warden Henry Town headed off the probe and satisfied thirty-five subordinate officials who were in open rebellion against him.

The charges chiefly were lack of discipline, arbitrary management and failure to co-operate with his subordinates.

REYES TO OPPOSE MADERO

May Lead Opposition in Spite of June
11 Manifesto.

Mexico City, July 20.—That General Bernardo Reyes will be the opponent of Francisco I. Madero at the presidential election in October is the belief of many of Madero's personal friends.

Should General Reyes lead the opposition he must withdraw those sentiments expressed in his manifesto of June 11 in which he urged his followers to support Madero for the presidency.

A Canal Event.

The first canalboat from the great lakes arrived in New York city Nov. 14, 1823.

ADMITTS STOCK
WAS WATERED

W. B. Thomas Before Sugar Investigating Committee.

COMPETITION IS INCREASING

Chairman of the Board of Directors of the American Sugar Refining Company Asserts That Efforts to Control the Business Had Been a Complete Failure and Each Year His Company's Share Is Decreasing.

New York, July 20.—Although the minutes of the meeting of the board of directors of the American Sugar Refining Company show that Washington B. Thomas, the present chairman of the board, was elected a member of a special committee with H. O. Havemeyer and Mr. Senff to acquire beet sugar refineries Mr. Thomas told the special congressional committee investigating the so-called "sugar trust" that he knew nothing about it until he read it in the government report at Washington a few weeks ago.

Mr. Thomas also told of his financial interest in the American Sugar Refining company. His stock, he said, amounted to about 3,000 shares, with a book value of about \$375,000, and the holdings of the members of his family, including his own, are between 15,000 to 20,000 shares, with a value of between \$1,600,000 and \$2,000,000.

Mr. Havemeyer, when he died, had only about 135 shares of stock, but for many years had thoroughly dominated the company, the witness said.

Mr. Thomas asserted that the \$90,000,000 stock of the company was represented by real property, with a book value of \$132 for every \$100 share of stock.

Declines to Accept Book Value.

Chairman Hardwick said he would not accept the company's book value as correct.

It was intimated the committee would endeavor to arrive at such a valuation by the employment of experts to appraise the value of the property.

Mr. Thomas admitted that he had no knowledge of any smaller company making active war on the American in the last twenty years, excepting the Arbuckle, but he would not admit that the American controlled the price.

Mr. Thomas insisted the American did not control the Great Western Beet Sugar company of Colorado, but Mr. Mally brought out that with the holdings of the Havemeyer estate they controlled about two-thirds of that company. The American, said Mr. Thomas, also holds 50 per cent of the Sprinkles interests in California.

Mr. Thomas said that any effort to control the sugar business had been a complete failure. Competition had been constantly increasing and each year the American's share of this country's business is decreasing.

Reads From the Minutes.

Representative Baker read from the minutes of the board of directors for the meeting Aug. 26, 1891, a passage saying that the "president reports that because of the decreased consumption of refined sugars it might be necessary to reduce the output so as to maintain the price."

Mr. Baker asked Mr. Thomas if the company had ever changed that policy. Mr. Thomas said he never knew that that had been the policy of the company and would not answer the question otherwise.

In reply to Representative Madison Mr. Thomas went into the formation of the original trust.

"The refineries composing the first company were capitalized at \$6,500,000 and were given \$50,000,000 of sugar trust stock for their properties, were they not?"

"I believe so."

"That was a lot of moisture, was it not?"

"I guess so."

"Do you not know that much of the stock is now watered?"

Mr. Thomas admitted that this might be true.

ANOTHER CHOLERA VICTIM

Seventh Death Occurs at Swinburne Island Hospital.

New York, July 20.—Another death from Asiatic cholera occurred at the Swinburne island hospital of the New York quarantine station. The victim was Giuseppe Pettinle, thirty-two years old, who arrived here on the steamer Moltke.

Notwithstanding this additional death, making the count seven at this point, Health Officer Alvah H. Dory issued a statement in which he said the situation was satisfactory. No further cases of the disease have developed among the detained immigrants.

How Wheat Came to Earth.

JOHN B. JACKSON.

Minister Assures Cubans This Country Will Not Intervene.

NO CUBAN INTERVENTION

United States Gives Assurance to Island Government.

Havana, July 20.—Rumors which have been current recently that the American government was considering another intervention in Cuba were dispelled when the American minister, John B. Jackson, visited Senator San gully, the Cuban secretary of state, and delivered a message from Mr. Knox, the American secretary of state, in which the secretary declared that the American government had not the least intention of intervention.

Senator Sangully expressed his warm appreciation and said he was convinced that nothing would disturb the present friendly and intimate relations between the two countries.

FEDERAL CONTROL
OF CORPORATIONS

Attorney General Favors Plan in Address at Duluth.

Duluth, July 20.—Control of corporations by a federal commission instead of the present method wherein varying state laws make difficult obedience to the law was urged by Attorney General George W. Wickersham in his address before the Minnesota State Bar Association.

Mr. Wickersham pointed out the difficulties of the problem. He declared more regulation is necessary. He was not ready to say that the federal commission, for which he argued, should be given control over prices, although he pointed out that there is little difference between regulation of transportation charges and a reasonable supervision of commodity prices.

The laws of supply and demand, he declared, do not fix the price of staple articles in the United States. Those prices have been fixed too long by agreement of the producers, he said, leading him to the conclusion that in theory the creation of a federal commission to regulate prices is advisable, but that practical obstacles in the way of such procedure practically are insurmountable.

The attorney general declared himself in favor of federal incorporation as a step necessary to control the monopoly evil. He argued against incorporation stock holdings whereby one company is able to own a controlling interest in another and asserted that with federal incorporation and supervision business affairs could be conducted to the benefit of the public and the satisfaction of the commercial world.

TWELVE-YEAR-OLD HEROINE

Drowns in Futile Effort to Save Her Eleven-Year-Old Playmate.

Houghton, Mich., July 20.—Theresa Dolan, aged twelve, and Gladys Robinson, eleven years old, were drowned at Ontonagon, near here, in a small pond five feet deep.

The little Robinson girl, who had ventured into the pond on a small raft, fell into the water and the Dolan child, who was on the bank of the pond, rushed into the water in her effort to save her playmate.

The two were drowned before three other children who were playing with them could summon assistance.

MANY ANONYMOUS LETTERS

Custodian of Chicago Stock Yards Fire Relief Fund Threatened.

New York, July 20.—Threatening letters, which drove Harlow N. Hignbotham of Chicago to Europe two weeks ago, met him again when he returned on the steamer Olympic.

Mr. Hignbotham is custodian of the funds raised for the benefit of the widows and orphans of the firemen killed in the stock yards fire last December. He said he has received several anonymous threats because some of the beneficiaries of the fund were not satisfied with the income and demanded the division of the entire fund among them.

London, July 20.—Deaths from the plague in India have reached the enormous total of 650,690 for the half year ended on June 30.

No Annoyance.

The wife of a very irritable landlord in Ireland once received a letter from a dissatisfied tenant warning her that her husband would certainly be shot, but that nothing would be done to injure or annoy her in the least.—London Telegraph.

BACON FOUGHT
AT BULL RUN.

Georgia Senator Says He Remembers Battle Well.

ANNIVERSARY IS CELEBRATED.

Veterans of Both Armies Participated in the Exercises—No One Can Tell What Is Likely to Happen Any Day in the Senate—Clash Between Bailey and Williams Comes Unexpectedly.

By ARTHUR W. DUNN.

Washington, July 20.—[Special.]—July 21 is the fiftieth anniversary of the battle of Bull Run. That battle is particularly interesting to such residents of Washington as remember it, for it seemed likely that the defeat of the Union forces so close to Washington might mean the capture of the national capital by the Confederates.

The battle is more interesting to Senator Bacon of Georgia than any other man now in public life, for he was a boy soldier at the time, and he is one of the few men of prominence in public life who took part in the engagement. Senator Bacon says he recollects the events of that day much more vividly than he does many things which have happened since. He can now describe the battle with as much accuracy as the historians and with much more interest, for he tells what he saw and the impression it made upon him at the time.

Veterans of both the Union and Confederate armies made arrangements to participate in the ceremonies of the fiftieth anniversary. That the animosities are forgotten is apparent when both sides unite to celebrate the event.

A Way of the Senate. No one can tell what is going to happen in the senate. Senator Sutherland announced a speech on the Arizona constitution, and everybody expected a dull and dry constitutional argument. It turned out to be the most brilliant speech of the session.

Then it was expected that the balance of the day would be devoted to time killing talk on the reciprocity bill, but the promised clash between Senator Bailey and John Sharp Williams enveloped the senate and the few spectators who remained in the heated chamber. We knew that at some time these brilliant southerners would cross swords, but it was unexpected because it was believed that it would occur when the wool bill was considered.

Those Paddle Fans.

Paddle fans, such as are seen in cheap restaurants, disfigure the symmetry of the senate chamber and disturb the hot air which accumulates under the skylight.

"Those fans would never have been allowed if Eugene Hale was a member of the senate," was the remark of an old employee who was thoroughly acquainted with Hale's peculiarities. A curious feature of the fanning process is that the heated and vitiated air is driven down from above for the senators to breathe over and over again.

Kidnaping a President.

In a colloquy between Senator Gronna and Senator Reed the North Dakota senator, being pressed to say what President Taft would do with the reciprocity bill in case it was amended, said: "It is unfair to ask me a question of this kind, for I had almost come to the conclusion that the Democratic party had kidnapped our president."

As the Record Reads.

The morning papers announced that there had been a most entertaining debate between Senator Bailey of Texas and Senator Williams of Mississippi, in which each tried to read the other out of the party and that each claimed to represent simon pure Democracy. It lasted until long after 7 o'clock in the evening. Those who were not in the senate turned to the Congressional Record to read the interesting discussion, and this is what they found:

Mr. Bailey addressed the senate. His speech will be published hereafter.

Mr. Williams addressed the senate. His speech will be published hereafter.

Mr. Bailey addressed the senate. His speech will be published hereafter.

Mr. Williams addressed the senate. His speech will be published hereafter.

Mr. Bailey addressed the senate. His speech will be published hereafter.

Mr. Williams addressed the senate. His speech will be published hereafter.

The Fourth Smith.

Hoke Smith of Georgia will make the fourth Smith in the senate, and, like the Maryland and Michigan senators, he will be known by his first name. He comes with the prestige of having been a cabinet officer and twice governor.

Chilton's Busy Day.

Former Governor McCorkle of West Virginia was in Washington last week and saw Senator Chilton of his state. Chilton said to McCorkle that he was quite tired and when asked what he had been doing replied, "I've been presiding over Gronna."

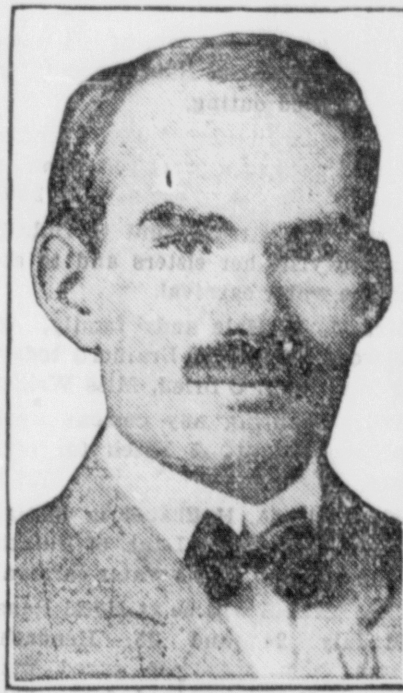

He then explained that Vice President Sherman had called him to the chair and left him there all day, while Senator Gronna of North Dakota spoke against the reciprocity bill. Chilton was the only man who listened and at times was the only senator in the chamber.

The Old Egyptians.

Egyptian civilization and art had attained a high degree of development in 2500 B. C.

LEE DE FOREST.

Wireless Inventor Blames His Mother-in-Law for Divorce Suit.

BLAMES HIS MOTHER-IN-LAW

Sued for Divorce.

San Francisco, July 20.—Harriet Stanton Blatch of New York, suffragist leader and daughter of Elizabeth Cady Stanton, is declared by her son-in-law, Dr. Lee De Forest, scientist and wireless inventor, to be responsible for the suit for absolute divorce filed here against Mrs. Nora Stanton Blatch De Forest. The suit follows a suit for separation filed by Mrs. De Forest at Shoreham, L. I., June 17.

GRAND JURY INDICTS
WALL PAPER MEN

True Bills Allege Conspiracy in Restraint of Trade.

Cleveland, July 20.—Four indictments were returned by the federal grand jury which has been investigating an alleged wall paper trust. The indictments charge a conspiracy in restraint of trade under the provisions of the Sherman anti-trust law.

The indicted parties are all officials of wall paper jobbing houses. They are J. B. Pearce, president of the J. B. Pearce Wall Paper company of Cleveland, Norton Newcomb of St. Louis, Edward E. Maxwell of Chicago and C. C. Aler of Columbus, O. Bond was fixed at \$500 in each case.

The specific charge against the indicted men is that they met in Cleveland on May 30, 1910, and after a secret session notified wall paper manufacturers of the country that if they sold wall paper to 5 and 10 cent stores the jobbers would boycott the manufacturers.

ALDRICH READY TO APPEAR

Former Senator Will Testify Before Lorimer Committee.

Washington, July 20.—Whether the Taft administration wanted Lorimer elected to succeed Hopkins as Illinois senator, and whether former Senator Aldrich of Rhode Island, then the Republican senate leader, was the means through which that wish was conveyed to Edward Hines, the lumber man, probably will be developed. Mr. Aldrich arrived in Washington and is ready to appear before the Lorimer committee at once to explain his alleged activities in connection with the Illinois senatorial election.

Hines has testified that he waited until midnight at the Washington home of Senator Aldrich while the latter at the White House talked over the Illinois senatorial deadlock with President Taft. At the conclusion of the conference Hines said he was told by Aldrich that the president wanted Lorimer elected.

Following Hines' testimony a statement of the president's attitude toward the impression created by Hines was issued from the White House. The testimony of Aldrich has been awaited with much interest.

Dr. George L. Andrew Dead.

La Porte, Ind., July 20.—Dr. George L. Andrew, said to be the last member of the sanitary commission during the Civil war, editor of the government paper, the Sanitary Record, and at one time house physician at Bellevue hospital, New York city, died here, aged eighty-nine years. He was born in Hamilton, O.

PEAVEY REPORT WEDNESDAY

Creditors Will Receive Statement of Company's Finances.

Chicago, July 20.—Creditors of F. H. Peavey & Co., whose assets are now being held by a joint committee of Chicago and Minneapolis bankers, will receive a statement of the company's finances by next Wednesday, according to the announcement made here.

Work on the accounts is being rushed in order that the committee may have substantial basis upon which to work in extending the \$2,050,000 loans of the concern which mature Aug. 1.

VETO MEASURE
WILL PASS LORDS

ASSASSIN KILLED BY POSSE

Not Until He Wounds a Farmer Who Had Discharged Him.

St. Joseph, Mo., July 20.—Surrounded by a posse of officers and farmers, eight miles north of town, Louis Legatta, sought on charges of arson and attempted murder, refused to surrender and was killed by bullets and buckshot. Just as the volley crashed out Legatta discharged a shotgun, the load hitting W. T. Kirtley, whose life he attempted two nights in succession. Kirtley's wounds are not dangerous.

Kirtley is manager of a stock farm and discharged Legatta early in the week. For two nights Legatta and a companion skulked about the farm firing haystacks in order to bring Kirtley from his home.

MINERS' CHIEF RAPS COURT

Says Labor May Soon Be Judged on "Reasonable" Basis.

Butte, Mont., July 20.—President Charles Moyer's annual report to the Western Federation of Miners urged participation in politics as a body, favored the recall of judges and, citing the supreme court decisions in the tobacco and Standard Oil cases, declared it is only a question of time when the courts will bring labor unions under the Sherman anti-trust act and that the labor movement's legal status then will hang on judges' opinions whether they are "reasonable" or not.

President Moyer recommended consideration of a plan to raise a giant fund and enter the mine operating field.

Woman Is Auto Victim.

Willmar, Minn., July 20.—Mrs. C. W. Carlson of Carpenter, S. D., is dead and her husband is seriously injured as the result of an automobile accident near this city in which the machine backed over an embankment, throwing the occupants into a tree from which they were suspended.

Peers May Also Accept Bill When Shorn of Amendments.

COMMONS WILL ACT QUICKLY

Next Monday the Prime Minister Will Move the Exclusion of the Lords' Amendments and Is Expected to Make an Important Pronouncement on the Ministerial Intentions—Many New Peers May Be Created.

London, July 20.—The Daily Telegraph, a staunch Unionist, in an editorial says not only that the house of lords will pass the third reading of the veto bill without division, but that when the government bill is returned to the upper chamber snore of the lords' amendments they will pass that also, for the simple reason that "there really is no practicable choice," and because it would form an evil and dangerous precedent to bring the crown into the struggle and it would be impossible for the king to withhold his consent if the ministers requested the creation of peers.

Practically the whole Unionist press has now fallen into line with the Telegraph in the admission that this is the only reasonable policy for the lords to follow and that the no surrender policy would be suicidal.

Long meetings of the cabinet and also the Unionist leaders, including Balfour and Lansdowne, Selborne, Curzon, Salisbury and others, were held for the purpose of making final arrangements for the coming debates.

Premier Asquith has postponed his intended visit to Scotland on account of the crisis and urgent whips have been issued to all parties for Monday's sitting of the house of commons. On that date the prime minister will move the exclusion of the lords' amendments and is expected to make an important pronouncement on the ministerial intentions.

According to persistent reports whatever happens fifty new peers will be created before the bill is sent back to the lords as an earnest of the government's intentions should the peers still display a disposition to be obdurate.

It is explained that the present government has created fewer than the customary number of peers in recent years and that, therefore, the creation of fifty now would little more than restore the balance.

That the creation of peers may yet be necessary is indicated by an editorial in the Morning Post, which still counsels a firm policy of no surrender.

FARM STOCK SHOWS GAIN

North Dakota Census Returns on Animals, Poultry and Bees.

Washington, July 20.—Statistics relative to the domestic animals, poultry and bees reported on farms and ranges for the state of North Dakota at the thirteenth decennial census, April 15, 1910, are contained in an official statement issued by Acting Director Falkner.

The aggregate value of all domestic animals, poultry and bees in 1910 as reported was about \$198,194,000, as compared with \$42,400,000 in 1900; the amount of increase being \$65,764,000, and the rate 155 per cent.

The total value of the domestic animals was reported as \$106,706,000 in 1910, as against \$41,952,000 in 1900; the increase amounting to \$64,754,000, or 154.4 per cent.

The poultry was valued at \$1,485,000 in 1910, as compared with \$477,000 in 1900; the gain being \$1,008,000, or 212.2 per cent.

The bees were valued at \$3,086 in 1910, and \$1,474 in 1900; the increase amounting to \$1,612, or 109.4 per cent.

WISCONSIN WARDEN QUILTS

Prison Official Resigns When Probe Is About to Begin.

Fond du Lac, Wis., July 20.—By tendering his resignation to take effect immediately, thirty minutes before the state board of control was slated to begin a general investigation of charges preferred against the management of the state prison at Waupun, Warden Henry Town headed off the probe and satisfied thirteenth subordinate officials who were in open rebellion against him.

The charges chiefly were lack of discipline, arbitrary management and failure to co-operate with his subordinates.

REYES TO OPPOSE MADRID

May Lead Opposition in Senate of June 11 Manifesto.

Mexico City, July 20.—That General Bernardo Reyes will be the opponent of Francisco I. Madero at the presidential election in October is the belief of many of Madero's personal friends.

Should General Reyes lead the opposition he must withdraw those sentiments expressed in his manifesto of June 11 in which he urged his followers to support Madero for the presidency.

TAP DAY AT YALE.

What It Means to the Juniors Who Have "Made Good."

The three great senior societies of Yale—Skull and Bones, Scroll and Key and Wolf's Head—choose on tap day fifteen members each from the junior class, the fifteen members of the outgoing senior class making the choice. Each senior is allotted his man of the juniors and must find him in the crowd at the tree and tap him on the shoulder and give him the order to go to his room. Followed by his sponsor, he obeys, and what happens at the room no one but the men of the society knows. With shining face the lad comes back later and is slapped on the shoulder and told, "Good work, old man," cordially and with a heart by every friend and acquaintance—by lads who have "made" every honor possible, by lads who have "made" nothing, just as heartily, for that is the spirit of Yale.

Only juniors room in Durfee hall. On tap day an outsider is lucky who has a friend there, for a window is a proscenium box for the play—the play which is a tragedy to all but forty-five of the three hundred and odd juniors. The windows of every story of the graystone facade are crowded with a deeply interested audience. Grizzled heads of old graduates mix with flowery hats of women. Every one is watching every detail, every arrival. In front of the hall are a drive and room for perhaps a dozen carriages next the fence—the famous fence of Yale—which rails the campus round. Just inside it, at the northeast corner, rises the tree. People stand up in the carriages, women and men. The fence is loaded with people, often standing, too, to see that tree.

All over the campus surges a crowd—students of the other classes, seniors who last year stood in the compact gathering at the tree and left it sore hearted, not having been "taken;" sophomores who will stand there next year, who already are hoping for and dreading their tap day; little freshmen, each one sure that he at least will be of the elect, and again the iron gray heads, the interested faces of old Yale men, and the gay spring hats like bouquets of flowers.

It is perhaps the most critical single day of the four years' course at the university. It shows to the world whether or no a boy, after three years of college life, has in the eyes of the student body "made good." It is a crucial test, a heartrending test for a boy of twenty years—Mary R. S. Andrews in Scribner's Magazine.

According to Rules. "Why, you absentminded man, are you starting out with an umbrella on such a shiny day?" "I am bound for the art gallery."

"But you cannot exhibit an umbrella!" "Of course not, but a notice on the catalogue says that one must leave his cane or umbrella outside before he can enter."—Puck.

Sauce. "The impudence of that young brother of mine!" exclaimed Mrs. Nagger. "He told me I was no chicken when I married you."

"Well," replied her unsympathetic husband, "that's true enough. You weren't a chicken, were you?" "No; I was a goose."—Philadelphia Press.

No wise man ever wished to be younger.—Swift.

PATRICK CONWAY.

STATE FAIR MUSIC.

Patrick Conway, one of the best known and most popular band directors of the United States, and his great musical organization will be a strong feature of the musical program during the entire week of Sept. 3 to 9 at the Minnesota State Fair.

The Klitie Band of Galt, Ont., is another equally famous organization, and these two great bands, together with three Minnesota bands and three orchestras, will furnish more and better music than has ever been on the program of Minnesota or other state fair. Sacred concert Sunday, Sept. 3.

The Iron Cross.

The Iron Cross, an order of knighthood, was established by Frederick William III. of Prussia in March, 1813. The order was founded in order to honor patriotic bravery in the war against France. It was revived by Emperor William I during the Franco-Prussian war and awarded by him to his son for his great victory at Wissembourg on Aug. 4, 1870. Later on the order was bestowed most generously, some 40,000 persons being decorated between 1870 and 1872.

Expert Advice.

The prison turnkey found the two cellmates deeply engrossed. One pored over the market reports of a news paper and figured on the margin with a pencil. His cellmate sat expectant. "Bill," said the mathematician at last, "you could make \$34 a night stealin' hogs in Iowa."—Success Magazine.

Kept Him Guessing.

"The course of true love never does run smooth." "Well, it's a good thing. When a young man finds things running too smoothly he is apt to get bored and wander away."—Kansas City Journal.

CONSERVATION OF A PROBLEM

Automobile and Aeroplane Used In Hunting.

EVERY year the biological survey makes a report covering the progress of game protection in the United States. The reports mark a steady progress in the movement for the increase of game by propagation and the establishment of game preserves. This year's report, just published, is made by T. S. Palmer and Henry Oldys. They relate that the increased popularity of the automobile by hunters was marked, and the possibility of utilizing the aeroplane in duck shooting was demonstrated by an experiment in southern California last November. So far as is known, this was the first attempt made to use the aeroplane in shooting game.

Another innovation was frowned upon when a Maine court imposed a fine upon a nonresident for using one of the recently invented silencers on his rifle while out after deer. This was the first conviction in any court for this new offense. Another important court decision was that of the supreme court of Pennsylvania prohibiting the use of automatic guns. In Pennsylvania also the law prohibiting the possession of firearms by aliens was upheld in the lower courts, and in consequence the disarming of aliens has made rapid progress.

A count taken by the American Bison society shows a total of 2,108 pure blood buffalo in North America as compared with 1,017 at the date of the last census, made in 1908. Of these 1,007 are in captivity in the United States, 626 are in captivity in Canada and 475 are wild. The corresponding figures for 1908 were 1,116, 476 and 325. The decrease in the number in the United States was caused by the large purchases made by the Canadian government. The total number of buffalo has, however, increased by nearly 200.

The largest herds in private hands are now those of the Soldiers' Creek park at Belvidere, Kan.; the remainder of the Pablo herd at Ronan, Mont.; the Blue Mountain Forest association herd at Newport, N. H.; the Little herd at Pawnee, Okla.; the Phillips herd at Pierre, S. D.; the Goodnight herd at Goodnight, Tex., and the Dooley herd on Antelope island, in Great Salt lake. The outlaw buffalo belonging to Michel Pablo, which have thus far defied all attempts at capture, are supposed to number about seventy-five. It was announced in the autumn that a hunt would be organized by the owner of the herd. The state warden immediately took steps to prevent the hunt under the provisions of an old Montana law prohibiting the killing of buffalo at any time in the state.

Waterfowl and Woods Game.

From the gunner's viewpoint the waterfowl season was not satisfactory last year, but from the standpoint of the game conservationists it seems to have been very favorable. On the Atlantic coast the number of canvasbacks and redheads was greater than usual in the Long Island bays and on the Massachusetts coast, but much smaller than usual on the Susquehanna flats and Currituck sound, where these species are usually abundant. Canvasbacks are reported as numerous and increasing on Cayuga lake, central New York, where they were very scarce a dozen years ago.

Introduced pheasants seem to have held their own in sections where they have become established and in some instances show an increase. In the region around Buffalo, N. Y., where shooting is permitted for a short season in the fall and where 15,000, it is estimated, were killed in 1908, the stock does not seem to have been diminished. In the Genesee valley and in the region around Canandaigua pheasants have become quite numerous. In Massachusetts the birds seem to be holding their own, and the same is true of Ohio.

In no place where they have been liberated have Hungarian partridges yet become fully established, and in

GREATEST FAIR CROWDS.

All Indications Point to a Half Million Attendance and Comfort Will Be Provided for All.

Every preparation is being made for the care and entertainment next September of a greater crowd than ever before attended the Minnesota State Fair and Exposition. A large number of additional park seats, new drinking fountains, comfort stations, a rest hospital and nursery have already been provided for.

The sidewalks on the main avenues have been widened and a number of the streets and street corners have been so graded as to care for greater crowds. Additional ground has been given the street car company at their central terminals and this space will greatly increase the company's facilities for handling the immense crowds that are expected.

The Agricultural society has purchased nine lots adjoining their present railroad yards and unloading platform and these will be increased in number and convenience. Fences and buildings on the fair grounds are being repaired and painted. A new building is being erected that will connect the woman's building and annex. Several new structures for machinery exhibits are being built on Machinery hill.

Black Opals.

The gem most sought after is the Australian black opal, which is found nowhere else in the world. It appears in limited quantities in the matrix of ironstone and sandstone in the Lightning Ridge district of New South Wales.

GAME IS NOW FOR THE NATION

Only a Little More Than 2,000 Buffaloes Left.

several regions where large sums have been spent in the attempted acclimatization of these birds they are reported to have disappeared through climatic or other causes. Other foreign game birds have practically all disappeared from the regions where they have been liberated.

Indiana bought and distributed 8,000 partridges and New Jersey 2,000 partridges and 4,000 English ringneck pheasants during the year; Missouri arranged for the purchase and distribution of 4,000 partridges; California liberated 2,400 partridges in thirty-nine counties; Iowa arranged for the purchase of 5,000 pairs of partridges to be liberated early in 1911; Idaho completed the distribution of 1,600 pheasants bought in 1909; Louisiana in the fall of 1910 bought 120 pheasants for distribution throughout the state and liberation on the state game preserve in Caldwell parish, and Colorado placed twenty-five pairs of partridges in nine counties and began the distribution of 2,000 pheasants.

Oklahoma and Iowa distributed 20,076 and 6,265 peasant eggs, respectively, to farmers for hatching and later liberation of the resulting broods. Iowa also arranged for the purchase and distribution of adult pheasants. South Dakota began an experiment with 200 or 300 pairs of pheasants and a few partridges, and Vermont gave much consideration to restocking the state with pheasants, wild turkeys and Hungarian partridges, the last being regarded less favorably. A few partridges were turned out by private organizations in New York, and 100 partridges were planted in Mississippi and Tennessee by an enthusiastic sportsman.

Results of Experiments.

It is yet too early to determine the outcome of most of these experimental measures, though negative results appear to have followed the liberation of partridges in New Jersey, Mississippi and Tennessee. During the year, however, it has developed that the planting of 1,000 pheasants in Kansas three or four years ago has been entirely barren of results and that of nearly 10,000 partridges liberated in Connecticut in 1908 and 1909 about 170 broods remained in the fall of 1909, which have since diminished and were probably finally destroyed by the severe weather of December, 1910. In the case of the Connecticut partridges, the fact that shooting was prohibited for only one season largely accounts for their disappearance.

In Indiana pheasants, which have been introduced for twelve or thirteen years, have yielded only fair results, while through the last few years' introduction of Hungarian partridges there are, according to a recent estimate, 10,000 of these birds on the 100 preserves created by contracts with farmers. Pheasants have increased in New Jersey as the result of three years' planting, and partridges in Nebraska from 124 pairs put out by the state in 1907 augmented by \$1,000 worth liberated by ranchers early in 1909. Chinese pheasants, introduced in Idaho in 1908 and 1909, have become established wherever fed and otherwise cared for. Delaware shows only negative results from 100 pairs of partridges distributed in 1909.

The importation of foreign birds and mammals shows a slight increase. One of the largest single shipments ever reported came into New York from Hamburg in a vessel which brought 11,661 canaries and other nongame birds in one lot consigned to a New York importer. The chief importations of mammals were Japanese dancing mice and monkeys of various species. Two mongooses from Havana were denied admission. The game protection legislation in 1910, though small in laws passed, included several important acts. Only two retrograde measures are noted—the opening of a season on robins, blackbirds and gulls in Louisiana and the permitting of dove shooting in July in Mississippi.

WEDDING DON'TS.

Young Wife, Celebrating Divorce, Gives Marriage Code.

To celebrate her divorce, Mrs. Roy Hurwitz, twenty-two years old, of Brockton, Mass., gave a dinner to her friends and told them her opinion of husbands. Here is a code of rules she advises women to follow:

Pick out your own husband. Don't let your mother's advice force you into marrying. Marry the man you love, provided he has a good disposition. Don't marry until you are out of your teens. If after marrying you find you are ill matched by all means get a divorce.

A Fish Fence.

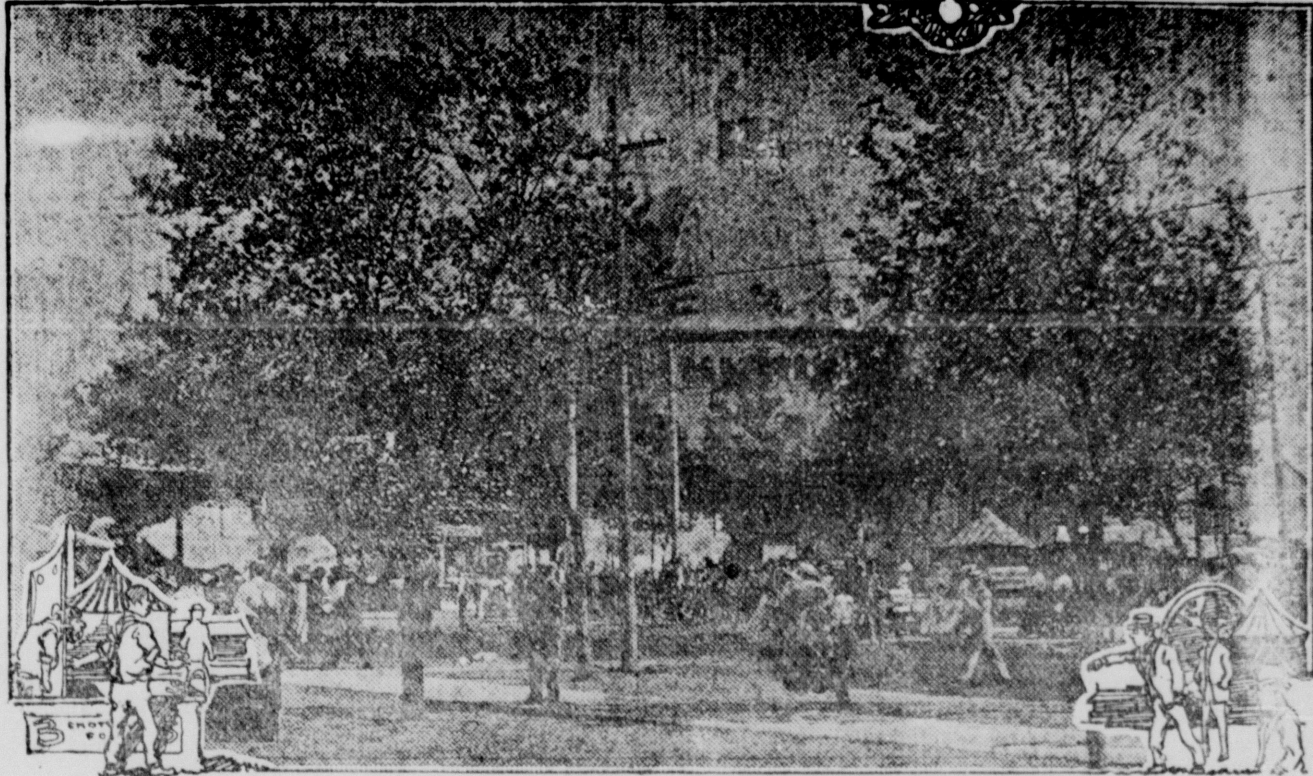

Bermuda will soon have a salt water fishing preserve covering an area of about five square miles. It will be made by constructing a sill of concrete across the single narrow opening which unites Harrington sound with the ocean and fixing a screen to prevent the exit of fish.

JUDGE TELLS HOW TO AVOID DIVORCE.

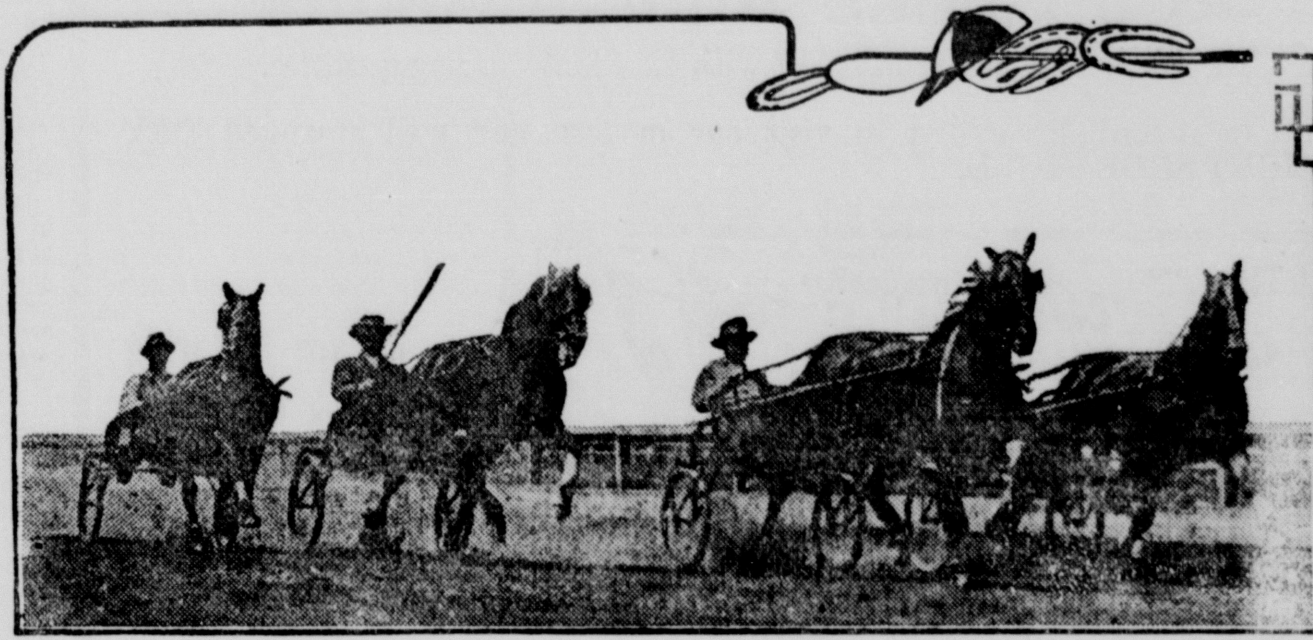

Gives List of Instructions For Wives and Advice For Husbands.

Judge Pettit of Chicago has come to the conclusion that parents of young married people are largely to blame for family troubles.

"The mothers-in-law are foremost trouble makers," said the judge. "I have all reverence for mothers and

motherhood, but they must not argue with their daughter-in-law or son-in-law, but must realize that they are individuals and have their work to do in the world. Mother can give advice when asked for it.

"But summer resorts, winter resorts and flat life can be blamed for many divorces."

"It is bad for husband and wife to be separated by trips away from home."

"My advice to husbands who wish to avoid divorce is this: 'Don't quote mother.'"

"Call up your wife while at business and ask how she is and say you called her up just to hear her voice."

"Give her a box of candy."

"One of the new books that she is interested in."

"A flower, even if it is faded and you have picked it up off the street."

"A pretty pin or handkerchief."

"And don't ever lay your head on your pillow at night without having done something to gain and obtain a firmer hold on your wife's love."

"Kiss her every day."

"At least once a month meet her downtown and take her to dinner and the theater."

"Don't you ever stop courting, for as soon as you do some other man will begin."

"Make your wife your companion."

"Take her out with you and when you have to have a big time take your wife along, and the divorce evil will be lessened."

"For the wives I should advise:

"Don't quote father."

"Pet your husband; he is only a big kid."

"Meet him at the door with a smile."

"Dress carefully as you did when he came courting."

"Wear the color he likes you in and the style of gown."

"Have something in the way of a surprise dish for dinner."

"Read the papers and magazines and be your husband's intellectual equal."

"Keep up with him in any special line of work."

"Encourage his hobby."

"Be sympathetic and do not tell him all the troubles of the day; he has had his own, more significant and important individually than all yours put together."

"Keep his clothes in order, a clean house and good food."

"Your husband is then yours forever and ever. No chorus girl or pretty stenographer can take him away from you. But keep him or somebody else will snap him up and make him think she and she alone ever did or will understand him."

NO MORE SMOKING IN PUBLIC

Dr. Wiley Says It Will Soon Be as Extinct as the Dodo.

Dr. Harvey W. Wiley, the government pure food and drug expert, is now after the smokers.

"I predict that within twelve years smoking and tobacco chewing in public will have become obsolete," said Dr. Wiley. "A man has a perfect

right to drink, chew or dip snuff in his private sanatorium, but he has not the shadow of a right to inflict unwholesome smoke on the community at large."

"There should be a strictly enforced law prohibiting smoking and chewing in public places or on the cars where other persons are obliged to be."

"College students, a brand of animal that is not noted for daintiness or regard for the feelings of others, will crawl under a grand stand to take a pull from the bottle that curses. Even these fellows will not drink openly so that their fellow citizens can watch them, and the same thing will come to pass as regards tobacco within the next few years."

Problem of the Electric Eel.

Invention during the next two or three centuries will probably be in the direction of imitating the wonderful economy and the simple direct methods of nature, says Professor John G. Kendrick. Take the electric eel. Its electric organ is in no sense a storage battery, but a contrivance by which electric energy is liberated at the moment when it is required. At rest the organ shows so small an electromotive force that a good galvanometer is required to detect it, but a sudden nervous impulse from the eel's spinal cord raises a potential of many volts with very little heat and so small an expenditure of matter as to defy the most expert chemist to weigh it.

How one man fooled his wife

She had been using her "favorite" baking powder. Wouldn't think of trying anything else, because "mother always used it," or some similar excuse. Hubby said she was prejudiced. He figured if Calumet, the new baking powder, selling at a moderate price, could be so successful, there must be some good in it. So he took a hand, and bought a can of Calumet, emptied the can containing her "favorite" baking powder and filled it with Calumet.

That evening, unsuspecting the trick, Wife prepared and served some of her famous biscuit— piping hot, temptingly browned and puffed up to airy lightness, they were even more delicious than usual. Hubby, after considerable difficulty, succeeded in convincing her that the basis of the improvement was Calumet baking powder. And so an everlasting friend for Calumet was made.

This truthful little incident simply proves that the housewife is oftentimes prejudiced against all baking powders except the one she has been using for years. She imagines that no other kind can possibly be as good. This is a mistaken impression. A trial of Calumet will prove that it is purer, more reliable, it has a greater leavening power than any other baking powder made. And it is moderate in price.

"Be sympathetic and do not tell him all the troubles of the day; he has had his own, more significant and important individually than all yours put together."
"Keep his clothes in order, a clean house and good food."
"Your husband is then yours forever and ever. No chorus girl or pretty stenographer can take him away from you. But keep him or somebody else will snap him up and make him think she and she alone ever did or will understand him."
NO MORE SMOKING IN PUBLIC
Dr. Wiley Says It Will Soon Be as Extinct as the Dodo.
Dr. Harvey W. Wiley, the government pure food and drug expert, is now after the smokers.
"I predict that within twelve years smoking and tobacco chewing in public will have become obsolete," said Dr. Wiley. "A man has a perfect

How one man fooled his wife
She had been using her "favorite" baking powder. Wouldn't think of trying anything else, because "mother always used it," or some similar excuse. Hubby said she was prejudiced. He figured if Calumet, the new baking powder, selling at a moderate price, could be so successful, there must be some good in it. So he took a hand, and bought a can of Calumet, emptied the can containing her "favorite" baking powder and filled it with Calumet.
That evening, unsuspecting the trick, Wife prepared and served some of her famous biscuit— piping hot, temptingly browned and puffed up to airy lightness, they were even more delicious than usual. Hubby, after considerable difficulty, succeeded in convincing her that the basis of the improvement was Calumet Baking powder. And so an everlasting friend for Calumet was made.
This truthful little incident simply proves that the housewife is oftentimes prejudiced against all baking powders except the one she has been using for years. She imagines that no other kind can possibly be as good. This is a mistaken impression. A trial of Calumet will prove that it is purer, more reliable; it has a greater leavening power than any other baking powder made. And it is moderate in price.
Your Grocer Will Guarantee it. Ask Him for

Nature Glorified by Art

is the charm that makes our wall papers so much sought after by these who love the truly beautiful, and who delight in making their homes attractive.

We make it a point to have the newest and most novel patterns. We do all kinds of outside and inside decorating.

Remember the name J. H. NOBLE, 716 FRONT ST. Opposite Freight Depot Phone 250

KEEP THE BOYS ON THE FARM

Exhibit at the State Fair Will Teach You How to Do This.

If you want to know how to build the best home for the farm and to make that home so attractive that it will be a pleasure to the adult members and keep the boys and girls on the farm you can learn all the details at the Minnesota State Fair.

A new and what will undoubtedly be a very popular and helpful exhibit of the 1911 fair will be a model farm home. This permanent exhibit is being prepared and will be shown under the auspices of the Minnesota State Art society. It is intended to give practical as well as artistic ideas to the prospective home builder. It will be helpful in many ways.

In all the details of construction, in every variety of practical and artistic furnishing and in the best pictures and books the home will be a model and those in charge will give valuable information on all subjects that pertain to making a home attractive.

QUARTER NOVELS COMING.

Publisher Predicts Era of Cheap Paper Covers. An eastern publisher attending the book fair in the Palmer House, Chi-

cago, said recently that in a short time fiction will be served to the summer reader in twenty-five cent paper covers.

The pasteboard or cloth bound volume and editions de luxe of the "best six sellers" are doomed, and according to this publisher's opinion there will be no royalty left for the author after the retailer has deducted 10 cents profit and the publisher 15 cents.

"We are approaching a revolution," he said, "and in a short time there will be no more \$1 and \$1.25 books. The public will not pay exorbitant prices for reading during leisure hours."

Sore on Them.

He—I feel, darling, that I am not half good enough to be your husband, but— She—But what, George? He—I'm a darn sight too good to be the son-in-law of your grouchy parents. —New York Journal.

THE NATIONAL BONE ARTIST.

Man Who Mounts Skeletons For the Smithsonian.

DIVISION CALLED BONE YARD.

J. W. Scollick Mounts Everything From an Elephant to a Bat—Wiring Bones Together Is Delicate Work and Gets on the Nerves—Small Skeletons Mounted Against Glass.

J. W. Scollick of the National museum in Washington is a craftsman in a trade with probably the smallest competition in the world. He is the official "bone man" of the government, or, in other words, the expert in charge of the work of cleaning, articulating and mounting skeletons at the museum, a trade by itself and one requiring infinite patience and great technical skill.

The removal of the National museum from the old to the new building has resulted in the division of skeletons being given larger quarters, and the display has been arranged so as to give it more prominence than ever. To employees of the museum and many visitors this division is known as the "bone yard."

Perhaps there is not the attraction in it for the average visitor that there is in the display of mounted animals and the big cases of ethnological groups, but it is one of the most remarkable collections in the whole museum. Mr. Scollick has been in charge of this work for years. The display in the museum is largely his work.

The exhibits range all the way from a full grown elephant to a herring. Each of them represents weeks of technical skill apparently out of all proportion to the finished result. Though there is more labor in the work, the larger skeletons are the easier to handle. The collection includes elephants, rhinoceroses, horses, gorillas, the larger monkeys, all sorts of deer, man himself and many mammals.

Wires, Springs and Braces.

Every bone in these big skeletons has to be drilled and articulated with wires, springs and metal braces. Although these do not show, it is necessary that they be put in place with mathematical precision to give the natural appearance. And then, too, everything must be scientifically just so. It is this which makes the finished work apparently so easy, but in reality so difficult.

The smaller skeletons, like lizards, small fish, bats and snakes, are not held together by wires. Their own cartilage dried in place is used to hold them together. This is one of the many reasons why a skeleton that is dried and mounted is never boiled. Not only would the boiling make the bones fall apart, but it would drive in the grease and make the bones yellow, the one thing not desired. The flesh is taken off the raw bones with a scraper and then the bones are carefully washed clean of grease with gasoline. Acids are not used at all except on rare occasions to remove a stain.

Carelessness Is Fatal.

Great care must be exercised in the drying and bleaching of the bones. This cannot be done in a hot sun, because the hot sun will crack the bones, as it will seasoning wood. From a bone artist's viewpoint the best bleaching weather is a gray, drizzling day, when there is no danger of the sun getting in its damaging work. Sometimes the bones develop black streaks, but this can usually be remedied with the use of dilute ammonia.

From beginning to end the whole skeleton cleaning process is tiresome and is said to "get on the nerves" worse than any other form of specimen mounting carried on at the museum. Weeks of cleaning are required to prepare some of the small fish skeletons, some of which have to be mounted against glass to keep them properly assembled for display. The bat skeletons, with their long, delicate wings, are also mounted in this way.

SONG AFFECTS A TRADE.

"Steamboat Bill" Increases Supply of Roustabouts.

"If 'Steamboat Bill' had not made such a hit with the negroes in all parts of the Mississippi valley we steamboat men would have been spared much trouble. As it is, so many want jobs that there are not enough places for them."

This was the observation of a New Orleans steamboat man recently. The chorus of "Steamboat Bill" runs:

Steamboat Bill, Steamboat Bill, Steaming down the Mississippi, Steamboat Bill, a mighty man was he, Steamboat Bill steaming down the Mississippi.

Going to beat the record of the Robert E. Lee.

It has not been long since the steamers leaving New Orleans had the greatest difficulty in hiring roustabouts to handle the cargoes of freight. Suddenly, the mates say, they were literally besieged with applications, and they attribute the fact to the song "Steamboat Bill."

A mate on one of the river packets arriving in New Orleans said:

"The men say they want to get into the steamboat business and declare that they are indifferent as to the points on the river touched by the packets or how long they are gone."

A LAUGHING FACE.

How it blesses the street, a face laughing all to itself! As one sees it the corners of his mouth begin to twitch, too, with God's good gift. Eyes light, strangers greet knowingly, hearts soften, spirits rise, lives brighten and the world grows friendly within the circle of the merry echo.—William C. Gannett.

INDIANS ARE PROGRESSIVE.

Three Tribes Petition For Commission Government.

THEY DO NOT LIKE LAWYERS

Have a Trust Fund of Six Million Dollars—One Indian Wants His People Kept as Far From Gambling and Whisky as the East Is From the West.

The affiliated Kiowa, Comanche and Apache Indian tribes are not to be outdone by their white brothers and are establishing a commission form of government. This follows the death of Quannah Parker, chief of the Comanches, to whom a successor may not be elected, though White Parker, his son, had been talked of for the place. Congress will be asked to approve the administration of tribal affairs by a proposed business committee or commission, composed of nine members—four Comanches, three Kiowas and two Apaches. The matter was thoroughly discussed at a council of the Indians attended by Lieutenant Ernest Stecker, United States Indian agent, and Representative Scott Ferris of the Fifth Oklahoma congressional district. The commission is to be composed only of young men, active and capable in tribal affairs.

For several years, unknown to most of the Indians, there has been a committee or advisory board co-operating with the Indian agent. Its members were Eschitt, Timbo, Mamsookawat, Comanches; Alpheahone, Lucius Aitson, Kiowas, and Apache John and Mizizoomdi, Apaches. De Loss Lone Wolf, Kiowa, and a graduate of Carlisle, and White Parker, Comanche, are to be added to the commission. Among the Indians who made speeches at the council were Comanche Jack, Alpheahone, old Chief Lone Wolf of the Kiowas and De Loss Lone Wolf. Comanche Jack landed squarely on the lawyers, saying that the Comanches did not want a legal representative, as the money for an attorney's salary was merely wasted.

George Hunt, the Kiowa Interpreter, wanted laws that would keep the Indians apart from gambling and whisky, "as far as the east is from the west." He whacked the Comanches by saying that they were the worst gamblers of all.

That the "commission" idea seems to be a good thing in the administration of the affairs of these affiliated tribes is indicated by a further proposal to create what is known as a "competency" commission, to be composed of three white business men, chosen by the secretary of the interior. This plan is in operation among certain other Indian tribes. It is intended that this competency commission, if authorized, shall pay \$10 monthly to each Indian. In addition to what he receives from what is called the "grass lease" fund. This payment among the Kiowas, Comanches and Apaches would amount to about \$30,000 a month, there being about 3,100 Indians, of whom 1,500 are Comanches. If the tribal funds in time should show exhaustion the competency commission then would sell eighty acres of each 160 acre allotment to replenish the fund, leaving a homestead of eighty acres. Representative Ferris is reported as favoring the scheme.

These affiliated Indians have a total tribal trust fund of \$6,000,000, of which \$4,500,000 is in the United States treasury.

BLOOD TESTS ON PIKE'S PEAK

Two British Surgeons to Determine Effect of High Altitudes.

Dr. J. A. Haldane and Dr. Gordon Douglas of Oxford university, who are to conduct a series of experiments on top of Pike's peak to determine the effect of high altitudes on the human blood, arrived at Colorado Springs recently and are arranging the complicated apparatus with which they expect to find whether the number of red corpuscles increases at high altitudes.

They will be assisted in their experiments, which will extend over six weeks, by Dr. Yambell Henderson of Yale and Dr. E. C. Schneider of Colorado college. The experiments are being made under the auspices of the Royal Society For Scientific Research.

Last summer Dr. Haldane and Dr. Douglas carried on experiments on the west coast of Africa, but they were not satisfactory, as they could not remain on the barren peak long enough to make tests of any value.

This year it was decided to conduct the tests on Pike's peak because of the ease with which the apparatus can be placed on the summit by the

cog road. After the party finishes work on Pike's peak tests will be made at Cripple Creek and other high altitudes in Colorado.

Girls Will Learn How to Shoot.

So that they may learn how to use firearms, girl members of the Broad Street Park Methodist Episcopal church of Trenton, N. J., have organized the Girl Rangers' club. The Rev. William Stone, the pastor, expects that all will develop into crack shots. He is to train them in artillery and also to give them instructions in general athletics.

PLAN DOUBLE DECK STREET.

Two Levels Proposed For Michigan Avenue, Chicago.

Following a luncheon at the La Salle hotel, participated in by city officials and the members of the Chicago plan commission, a decision was reached adopting the double deck plan for improving Michigan avenue from Randolph street across the Chicago river on the north to Ohio street.

The plan decided on calls for a double deck bascule bridge over the river. At either approach to the elevated boulevard it is proposed to build a plaza 222 feet square.

The upper deck of the new boulevard will be used exclusively for light traffic, and all heavy traffic will be diverted to the lower level. In this way the elevation will not interfere with the traffic incident to the wholesale district near the river, but will be an aid to the heavy teaming by removing all automobile and light traffic to the higher level.

Taxing Death.

They have queer ways of doing things in Mexico, as most observers are aware by this time, but the fact that they virtually impose a tax on death is perhaps not generally known. To illustrate, a young American was drowned in the Rio Grande, and his body drifted down the river, lodging finally on the Mexican side. When the relatives came to claim the body they were received with the utmost courtesy, but were somewhat amazed when informed that the remains could not be sent out of the country except upon the payment of a tax of \$120, that being the law in such case made and provided. The moral, if there be any, asserts the New York Mail, is this: Don't die in Mexico.

WINS COVETED DIAMOND PRIZE

Art White Wins the State Championship at the Shooting Tournament

HELD AT AITKIN WEDNESDAY

White Scores 42 Out of 50 and McGraw, Next Best Man, Shoots a Score of 40

Shooting in splendid form and cheered by his comrades, Art White on Wednesday afternoon landed the state championship diamond badge awarded the best shot at the state tournament held at Aitkin yesterday afternoon.

The events included 26 singles and 12 pairs. White shot 42 out of a possible 50. His next best competitor was G. J. McGraw, of Minneapolis, who made a score of 40.

The previous holder of the badge was V. N. Sugrue, formerly of Aitkin and now a resident of Cuyuna. With the honor of holding the badge for a year comes the credit of bringing the next tournament to the city of Brainerd, for the next annual shoot is always held at the home of the winner. If won three times in succession the valuable badge becomes the property of the contestant. It is made of solid gold and contains a large diamond. Linked with its intrinsic value is the long chain of associations called up by viewing the decoration. It was originally awarded by the old Board of Trade of St. Paul 30 years ago and has been shot for annually since that period.

George Trent, of this city, won the badge in 1895 and did his best to retain the precious emblem but lost it at the next tournament. Conditions change at each shoot, new shooters enter the lists and the contestant who seeks to retain the badge has a task on his hands of mighty proportions.

JUDGE SPOONER IN TOWN

Noted Jurist Attended the State Bar Association Meeting at Duluth Wednesday

Judge M. A. Spooner, the noted jurist of Bemidji, was in the city today on his way home from Duluth where he heard U. S. Attorney General Wickersham deliver a notable address to the bar association. Mr. Wickersham read his address and it was listened to with the greatest of attention.

Judge Spooner is the attorney for Mayor Dumas, of Cass Lake, and in speaking about the case against his client he said that the warrant on which Dumas was arrested was issued at three o'clock in the afternoon of June 16 for an offense alleged to have been committed after one o'clock the next morning.

The term of court at which Mayor Dumas is to be tried will commence Sept. 12.

NORTH COAST LIMITED HOLDUP

Special to The Dispatch:—

Grand Forks, N. D.—July 20, 1911:—The No. 2 east bound North Coast Limited train on the Northern Pacific railway was held up by three masked robbers near Buffalo, N. D., about eleven o'clock last night. The men secured about \$500 in cash by going through the passenger's pockets.

Engineer Olson, of Fargo, was shot twice by the bandits to make him stop his train.

Quickly going through the train the holdup men completed their work and made a successful escape in an automobile.

The local police have been notified of the robbery and are watching all trains. Detectives from Superior and Duluth arrived in the city early this morning and are covering the vicinity of Brainerd looking for suspects.

The Northern Pacific railway will leave no stone unturned to find the perpetrators of the crime.

Escaped With His Life

"Twenty-one years ago I faced an awful death," writes H. B. Martin, Port Harrelson, S. C. "Doctors said I had consumption and the dreadful cough I had looked like it, sure enough. I tried everything, I could hear of, for my cough, and was under the treatment of the best doctor in Georgetown, S. C., for a year, but could get no relief. A friend advised me to try Dr. King's New Discovery. I did so, and was completely cured. I feel that I owe my life to this great throat and lung cure." Its positively guaranteed for coughs, colds, and all bronchial affections. 50c & \$1.00. Trial bottle free at all druggists. tsw

A GRAND REUNION

J. W. Porter, of Crow Wing, Has Memorable Meeting With Messrs. Stivers and Burns

J. W. Porter, of Crow Wing, returned last night from a visit at Duluth and Superior, Wis. While at Superior he met his old friends, H. C. Stivers, the brilliant editorial writer of the Superior Telegram and John Burns, a son-in-law of William C. Prentice, of Crow Wing lake, Ft. Ripley.

Both Messrs. Stivers and Burns did their best to make the reunion a memorable one for Mr. Porter who was profuse in his expressions of the great time he had. "I tell you," said Mr. Porter, "we had a celebration which eclipsed the Duluth water carnival. We haven't seen each other for many years and the reminiscences we told would make a fortune for Mark Twain. I knew Stivers 40 years ago and he is just as jolly and full of jokes as he ever was."

Yonderin-Phillips

A very pretty home wedding was solemnized at the home of Mr. and Mrs. Seth Phillips, of Sylvan, yesterday at 4 o'clock. The contracting parties were Otto Yonderin and Madeline Phillips, Rev. W. J. Lowrie officiating.

Mr. Yonderin came recently from Saskatchewan, Canada, where he has a farm. Miss Phillips is the youngest of the family of Seth Phillips and is well known by Crow Wing county people.

The bride was gown in cream colored silk and carried a bouquet of white carnations. The ceremony was performed under a wedding bell of white flowers. R. E. Phillips served as best man and Mrs. R. E. Phillips was the matron of honor. A sumptuous wedding supper was served at 5 o'clock.

The young couple will take a short trip to Minneapolis and Eau Claire, where the groom's parents reside.

The guests were Mr. and Mrs. R. E. Phillips, Mrs. Clara Robinson, Mr. and Mrs. J. B. Cunningham, Mrs. Henry Palmer, Mr. and Mrs. Geo. Ramsey, Mr. and Mrs. Frank Hanson, of Minneapolis, Mrs. Geo. Lively, Mr. and Mrs. G. Crone, of Bemidji, Emma Hallet, of Brainerd, and Mr. and Mrs. M. J. Phillips, of Brainerd.

Many costly presents were received from Iowa, Duluth, Bemidji, Brainerd, Pennsylvania and Virginia.

Circus Bareback Riders.

The career of a bareback rider with a circus is limited to about ten years. It is short not so much because these men and women lose their agility, but because they lose their nerve. The tension and application are so strained and marked that it is only a few riders who are able to perform their startling feats more than a decade. Recklessness and daring die when youth ripens into age, and as all riders, as a rule, marry young and develop responsibilities, coupled with a lively sense of danger, cause them to retire or else seek some less strenuous life. These riders are well paid, the majority of them commanding from \$150 to \$250 a week.—Jamestown Post.

Madagascar's Two Climates.

The island of Madagascar has two distinct climates, two classes of natives and two classes of fauna and flora. The island is about the size of France. Along the coast it is tropical and malarious, and the natives are darker than in the interior. The interior is a high tableland and mountainous. There the climate is cooler and the natives smaller and lighter in color than on the coast. But in the interior they are more intelligent, and they rule the island.

A Peek Into His Pocket

would show the box of Bucklen's Arnica Salve that E. S. Loper, a carpenter, of Marilla, N. Y., always carries. "I have never had a cut wound bruise or sore it would not soon heal," he writes. Greatest healer of burns, boils, scalds, chapped hands and lips, fever sores, skin eruptions, eczema, corns and piles. 25c at all druggists.

Making Tea in Tibet.

The people of Tibet make their tea in a complex fashion. They get it in "bricks," which are brought overland from China by caravan. When a Tibetan wants to make tea he takes a piece of tea brick, pulverizes it and boils it in a kettle for a few minutes with a sufficiency of water and a pinch of salt. Then he puts the mixture into a little churn, adding a bit of butter and a small quantity of fine ground barley. These things he churns vigorously for a few minutes and then pours the stuff into the teapot. A strainer of bamboo is used. Each person in Tibet carries his or her own tea bowl, which is of wood, tucked into the folds of the body garment or robe.

The Indispensable Boy.

The events included 26 singles and 12 pairs. White shot 42 out of a possible 50. His next best competitor was G. J. McGraw, of Minneapolis, who made a score of 40.

The previous holder of the badge was V. N. Sugrue, formerly of Aitkin and now a resident of Cuyuna. With the honor of holding the badge for a year comes the credit of bringing the next tournament to the city of Brainerd, for the next annual shoot is always held at the home of the winner. If won three times in succession the valuable badge becomes the property of the contestant. It is made of solid gold and contains a large diamond. Linked with its intrinsic value is the long chain of associations called up by viewing the decoration. It was originally awarded by the old Board of Trade of St. Paul 30 years ago and has been shot for annually since that period.

George Trent, of this city, won the badge in 1895 and did his best to retain the precious emblem but lost it at the next tournament. Conditions change at each shoot, new shooters enter the lists and the contestant who seeks to retain the badge has a task on his hands of mighty proportions.

Parson's Poem a Gem
From Rev. H. Stubenvoll, Allison, Ia., in praise of Dr. King's New Life Pills.

"They're much a health necessity. In every home these pills should be. If other kinds you've tried in vain, USE DR. KING'S

And be well again. Only 25c at all druggists. tsw

JUDGE SPOONER IN TOWN

Noted Jurist Attended the State Bar Association Meeting at Duluth Wednesday

Judge M. A. Spooner, the noted jurist of Bemidji, was in the city today on his way home from Duluth where he heard U. S. Attorney General Wickersham deliver a notable address to the bar association. Mr. Wickersham read his address and it was listened to with the greatest of attention.

Judge Spooner is the attorney for Mayor Dumas, of Cass Lake, and in speaking about the case against his client he said that the warrant on which Dumas was arrested was issued at three o'clock in the afternoon of June 16 for an offense alleged to have been committed after one o'clock the next morning.

The term of court at which Mayor Dumas is to be tried will commence Sept. 12.

\$10 FOUNTAIN PENS FOR \$1.00

H. P. Dunn's drug store this week are having the greatest sale of Fountain Pens for \$1.00 ever held in Brainerd, every style imaginable from plain pens to gold mounts are included. A year's guarantee is given with each purchase. Better come early while the assortment is good.

Sickness in the Families of Five Members Caused the Band to Cancel the Concert

The Brainerd City band did not play Wednesday evening on account of sickness in the families of five of its members. The management regrets much that it was necessary therefore to cancel the concert for that evening and assures the public that the concerts will be resumed next Wednesday evening.

SAFE FOR SALE

The safe used in the postoffice is for sale at a bargain. Diebold Safe Co., make with a burglar proof chest 10x24, and inside measurement of safe exclusive of chest 28x36. Best bargain obtainable for anyone desiring safe of this kind. Enquire of Geo. A. Keene, or safe can be seen at the postoffice. 39t6

NORTH COAST LIMITED HOLDUP

Special to The Dispatch:—

Grand Forks, N. D.—July 20, 1911:—The No. 2 east bound North Coast Limited train on the Northern Pacific railway was held up by three masked robbers near Buffalo, N. D., about eleven o'clock last night.

The men secured about \$500 in cash by going through the passenger's pockets.

Engineer Olson, of Fargo, was shot twice by the bandits to make him stop his train.

Quickly going through the train the holdup men completed their work and made a successful escape in an automobile.

The local police have been notified of the robbery and are watching all trains. Detectives from Superior and Duluth arrived in the city early this morning and are covering the vicinity of Brainerd looking for suspects.

The Northern Pacific railway will leave no stone unturned to find the perpetrators of the crime.

Escaped With His Life

"Twenty-one years ago I faced an awful death," writes H. B. Martin, Port Harrelson, S. C. "Doctors said I had consumption and the dreadful cough I had looked like it, sure enough. I tried everything, I could hear of, for my cough, and was under the treatment of the best doctor in Georgetown, S. C., for a year, but could get no relief. A friend advised me to try Dr. King's New Discovery. I did so, and was completely cured. I feel that I owe my life to this great throat and lung cure." Its positively guaranteed for coughs, colds, and all bronchial affections. 50c & \$1.00. Trial bottle free at all druggists. tsw

A GRAND REUNION

J. W. Porter, of Crow Wing, Has Memorable Meeting With Messrs. Stivers and Burns

J. W. Porter, of Crow Wing, returned last night from a visit at Duluth and Superior, Wis. While at Superior he met his old friends, H. C. Stivers, the brilliant editorial writer of the Superior Telegram and John Burns, a son-in-law of William C. Prentice, of Crow Wing lake, Ft. Ripley.

Both Messrs. Stivers and Burns did their best to make the reunion a memorable one for Mr. Porter who was profuse in his expressions of the great time he had. "I tell you," said Mr. Porter, "we had a celebration which eclipsed the Duluth water carnival. We haven't seen each other for many years and the reminiscences we told would make a fortune for Mark Twain. I knew Stivers 40 years ago and he is just as jolly and full of jokes as he ever was."

Yonderin-Phillips

A very pretty home wedding was solemnized at the home of Mr. and Mrs. Seth Phillips, of Sylvan, yesterday at 4 o'clock. The contracting parties were Otto Yonderin and Madeline Phillips, Rev. W. J. Lowrie officiating.

Mr. Yonderin came recently from Saskatchewan, Canada, where he has a farm. Miss Phillips is the youngest of the family of Seth Phillips and is well known by Crow Wing county people.

The bride was gowned in cream colored silk and carried a bouquet of white carnations. The ceremony was performed under a wedding bell of white flowers. R. E. Phillips served as best man and Mrs. R. E. Phillips was the matron of honor. A sumptuous wedding supper was served at 5 o'clock.

The young couple will take a short trip to Minneapolis and Eau Claire, where the groom's parents reside.

The guests were Mr. and Mrs. R. E. Phillips, Mrs. Clara Robinson, Mr. and Mrs. J. B. Cunningham, Mrs. Henry Palmer, Mr. and Mrs. Geo. Ramsey, Mr. and Mrs. Frank Hanscom, of Minneapolis, Mrs. Geo. Lively, Mr. and Mrs. G. Crone, of Bemidji, Emma Hallet, of Brainerd, and Mr. and Mrs. M. J. Phillips, of Brainerd.

Many costly presents were received from Iowa, Duluth, Bemidji, Brainerd, Pennsylvania and Virginia.

BENEFIT GAME

Line-up Announced For Friday Evening Game Between the Molders and Machinists

At 6:30 Friday evening the molders and machinists will play a game at Koering field for the benefit of the Woman's Union Label League. The sale of tickets has been most gratifying and it looks now as though a handsome sum will be realized for the ladies. The line-up for the great game has been announced as follows:

Molders		Machinists
Willis	c	Wilson
Anderson	p	Erickson
Sundberg	1st	Little
Taylor	2nd	Kalland
DeRocher	3d	Davis
Roderick	ss	Kyllo
Lee	cf	Jones
Hansmann	rf	Witham
O'Connor	lf	Templeton
DeRocher	sub	Lund
		Butke
		Fricker

Kill More Than Wild Beasts

The number of people killed yearly by wild beasts don't approach the vast number killed by disease germs. No life is safe from their attacks. They're in air, water, dust, even food. But grand protection is afforded by Electric Bitters, which destroy and expel these deadly disease germs from the system. That's why chills, fever and ague, all malarial and many blood diseases yield promptly to this wonderful blood purifier. Try them, and enjoy the glorious health and new strength they'll give you. Money back, if not satisfied. Only 50c at all druggists. tsw

6th St., Opposite Iron Exchange

Circus Bareback Riders.
The career of a bareback rider with a circus is limited to about ten years. It is short not so much because these men and women lose their ability, but because they lose their nerve. The tension and application are so strained and marked that it is only a few riders who are able to perform their startling feats more than a decade. Recklessness and daring die when youth ripens into age, and as all riders, as a rule, marry young and add responsibilities, coupled with a lively sense of danger, cause them to retire or else seek some less strenuous life. These riders are well paid, the majority of them commanding from \$150 to \$250 a week.—Jamestown Post.

Madagascar's Two Climates.
The island of Madagascar has two distinct climates, two classes of natives and two classes of fauna and flora. The island is about the size of France. Along the coast it is tropical and malarious, and the natives are darker than in the interior. The interior is a high tableland and mountainous. There the climate is cooler and the natives smaller and lighter in color than on the coast. But in the interior they are more intelligent, and they rule the island.

A Peek Into His Pocket

Would show the box of Bucklen's Arnica Salve that E. S. Loper, a carpenter, of Marilla, N. Y., always carries. "I have never had a cut wound bruise or sore it would not soon heal," he writes. Greatest healer of burns, boils, scalds, chapped hands and lips, fever sores, skin eruptions, eczema, corns and piles. 25c at all druggists.

Summer Hose

Those sheer gauze lisle hose that "Michael's" are selling at the special price of 35c a pair or three pair for \$1.00, are the best to be had at the price. They are double sole, heel and knee. Ask to see them.

NEWS OF THE CUYUNA RANGE

DOCTORS MEET AT DEERWOOD

Upper Mississippi Medical Society Has Meeting Tuesday With Banquet at Adams Hotel

COUNCIL ALLOWS MANY BILLS

6 Blocks of Cement Walks to be Laid, Probably With Curbing Commencing at Block 8

Deerwood, Minn., July 20.—The Upper Mississippi Medical society had its summer meeting at Deerwood on Tuesday and the following doctors and their wives were present: Dr. and Mrs. J. A. Thabes, Dr. and Mrs. Werner Hemstead, of Brainerd; Dr. and Mrs. F. L. Wilcox, of Walker; Dr. and Mrs. Hart, of Pequot; Dr. and Mrs. Reid, of Deerwood; also Dr. Millsbaugh, of Little Falls, Dr. Walter Courtney, Dr. F. A. Groves and Dr. Ide, of Brainerd; Dr. Beardsley, of Crosby; Dr. Monahan, of International Falls; Dr. H. W. Hill, of Minneapolis; Dr. Lowthian, of Akeley. The trip on the lakes had to be abandoned owing to the inclemency of the weather. The banquet was held at the Adams hotel and Dr. Hill, of the state board of health, read an instructive paper relating to the duties of public health officers. Dr. A. C. Bosel and Miss Agnes I. Lamb furnished the splendid violin and piano music at the banquet.

At the adjourned meeting of the council recently held six blocks of cement walk were ordered in commencing at lots 7 and 8, block 8 at Oberg Brothers lots and extending both sides of the street of Forest Road from Clover road to Shady Walk, both sides of Shady Walk from Forest Road both sides of Cross Road from Shady Walk to the drive and on lot 4, block 14 along the north line of said lot from the drive to the shore of Serpent lake. An effort will be made to

put in curbing too. The council allowed the largest number of bills ever passed on in the history of the present body. They are as follows:

M. S. Lamey, salary for June	\$60.00
J. M. Hilyar, drayage	1.75
Deerwood Enterprise, publishing ordinance No. 9	5.00
F. V. Berglund, chairman, quarantine services on T. F. Cole residence	1.50
M. D. Stoner, electric lights, March and April	120.46
M. D. Stoner, electric light May	46.56
Cuyuna Range Hardware Co., supplies	6.68
John Humphrey, labor on streets	12.98
Peter J. Moe, labor on streets	14.75
Aug. Bartens, labor on streets	23.62
And. Hill, labor on streets	2.62
Chris Olson	6.72
Ben Nelson	14.70
Adolph Lindberg	14.17
Victor Erickson	5.25
Norval Olson	182.95
Andrew Hill	5.77
Ed. Reinhoel	14.17
Claus J. Olson	56.70
Claus J. Olson	8.27
Harry Scar	16.52
Andrew Christianson	1.05
J. Haney	14.17
J. Haney	23.62
J. Haney	17.72
P. A. Milneder	2.10
Chas. Anderson	8.40
Ed. Reinhoel	12.60
F. Anderson	6.82
Adolph Lindberg	9.45
Ben Nelson	4.20
James Wood	3.15
August Bartens	5.25
Claus J. Olson	6.82
Harry Scar	11.80
Chas. Anderson	3.60
Harry Scar	21.83
Ed. Reinhoel	8.40
Andrew-Bengston	9.45
Harry Scar	23.62
Andrew Christianson	12.07
Claus J. Olson	42.66
H. E. Ellefson	17.85

The council ordered that the owners of the abandoned hotel site in the first addition place a fence around the same. The street commissioner was authorized to spend \$60 to improve the road leading north to Cuyuna within Deerwood's limits. The clerk was instructed to write the county auditor about the inebriate farm assessments. The council then adjourned to Saturday, July 21.

The school election held Saturday evening caused much interest in town. The socialists had a meeting before the time set and resolved to support in a body the old set of officers which included Charles Benson, treasurer; C. B. Wright, clerk and Paul K. Wetzel, trustee. They believed that these members had assisted to inaugurate the new school house and all should remain in office until it was completed. Mr. Wetzel was the member whose term was to expire. At the meeting Dr. Reid was nominated, it is said, by C. H. Adams and declined to run as director. C. J. Rathvon was nominated by Dr. Reid and also declined. After an hour's balloting the vote stood 24 for Wetzel, 1 for Adams, 1 for Dr. Reid and 1 for O. C. Coffin. Mr. Wetzel was declared re-elected.

Frank Oberg, of the Deerwood Clothing Co. has returned from a business trip to Minneapolis. Gust Franson, of the Deerwood Iron Works, has returned from a business trip to Minneapolis. Oberg Brothers and Bradley have engaged the Helmer Exploration Co. to drill their lands in section 19-46-29. Salisbury Adams, a son of Cuyler Adams, was severely injured in a runaway Sunday. He was thrown

over the dash board of the buggy and had a bone of his ankle broken as well as sustaining bad bruises.

Sidney Cole, a son of T. F. Cole, was tangled up in a bicycle accident this week. The rope he was carrying while riding tangled up in a sporket wheel and threw him over the handle bars, bruising him severely. The married men of Deerwood, having won two games by 12 to 15 and 9 to 15 scores with other married men of the Cuyuna range, went up against the married men of Crosby. Victories had made them rather chummy, but they encountered their Waterloo in the neighboring town. Crosby's benedicts walloped them to the tune of 36 to 17. Every Deerwood man has a different version of the score and the above is given as the average score from figures compiled at Crosby and Deerwood. As one woman remarked: "If my husband would only do his ball playing on a Sunday and then give me a rest about the games. After a Sunday game he spends the whole week trying to tell me how they happened to get the worst of it and I have to listen to him." The single men and the married men have a game scheduled, it is reported, for Sunday morning.

A. Moork, of Aitkin, was in town looking over matters concerning the Aitkin-Deerwood Telephone Co. John Humphrey, the livery man, has sold the Pitzer Brewing Co., of Crosby, a fine team, a black and a bay for beer delivering. The brewing company now delivers over this entire section of the Cuyuna range.

The baking sale held by the Methodist Ladies Aid society at Hage's store proved so successful that another one has been planned to be held in the near future.

Contractor A. Roberts, of Duluth, is making good progress with the Deerwood school. A large shipment of pressed brick is on the way to be used in the construction of the building.

The Bay Lake Fruit Growers association shipped 300 boxes of raspberries on Wednesday evening. Berries are being sent daily to Duluth, Brainerd, Fargo, St. Paul, Minneapolis and other points.

Miss Alice Rutney, of Bay Lake, is visiting Marshal and Mrs. M. S. Lamey.

Motley, which recently played in Deerwood, is considered to be one of the most gentlemanly ball teams that ever visited the town. There was absolutely no kicking by the players during or after the game. They raised no disturbances and every one in the town commented on it.

George H. Crosby, Working Two Drills in Section 10-46-29, Makes Great Discovery

TWO MORE DRILLS RUSHED ON

Ironton and Crosby Are Each to Have a Four Room Modern School Building

Ironton, Minn., July 20.—News of a rich iron ore strike electrified the Cuyuna range today when it became known about that George H. Crosby, who has done so much to develop the range on the north, had struck rich ore near Ironton and close to Crosby in the southwest quarter of the northeast quarter of section 10-46-29. Two new drills are reported to have been immediately purchased by Mr. Crosby and rushed on to the scene of activity.

Fourth street is being opened up to West Park addition connecting with Oak street and on through Gaylord & Guth's addition to the dock of the Ingalls Motor Boat Co. on Serpent lake.

Ironton will soon have a modern four room school house similar in design to the one to be built in Crosby. Plans are now being drawn for the structure.

Many new streets are being opened up in West Park addition lying east of and adjoining Ironton.

John Helmer, the veteran mining man and explorer, has removed all his drills from the Mesaba range to the Cuyuna range, and they are now all busily at work.

The Helmer Exploration Co. has put on an extra drill in section 3-46-29 for the Cuyuna-Mille Laes Iron Co., and things are reported to look very encouraging for the company.

Chinese Music.

The notes of Chinese music read like the written characters, from right to left, and the intervals of the scale are different from those of the scale adopted by the nations of the west. The music is not very harmonious and sounds meaningless and jangling to western ears, but it has a pretty musical cadence that makes it attractive and interesting in spite of its frequent discords.

Oldest Royal Dynasty.

The oldest royal dynasty in the world is that of Japan, which goes back unbroken for 2,000 years.

PRIZE FOR GOOD CROSBY SLOGAN

Crosby Commercial Club Offers \$5 for the Most Appropriate Slogan for the Town

ROAR ABOUT FREIGHT RATES

Much exploration Work Near Crosby—Drifting Being Done at Armour No. 1 Mine

Crosby, Minn., July 20.—The Commercial Club met on Monday evening and decided to give \$5 as a prize to the person suggesting the best slogan for the town of Crosby. Something distinctive and catchy is wanted, something which will attract the attention of a man who hears of Crosby for the first time. Replies may be sent the secretary of the Commercial club, Duluth, it will be remembered had a slogan contest started by the Duluth Herald and several million suggestions were received from all over the country. "Do It For Duluth" was chosen. Minneapolis has "Minneapolis Makes Good." Brainerd has one, "Boost For Brainerd," suggested by a newspaper man. The Commercial club recommended further the publishing of envelopes advertising the town. A committee was appointed to look up club rooms for the winter.

Foundation work has been completed on the 10 houses which George H. Crosby is building in Lake Park division. They have all been taken up by prospective residents before the houses have been completed.

At the Armour mine the miners are engaged in drifting. It is said a 300 foot drift will be run. Every drift at a new level means so many more high paid workmen put to work and helps the range and the town.

A visitor at Crosby occasionally hear a deep, reverberating boom like a sunset gun fired in some places. It is a blast being set off in the Thompson mine which is going through solid rock in its shaft. At a recent blast rocks flew 115 feet in the air straight up the shaft to the surface. As soon as the Inland Steel Co. reaches the proper depth drifting will be commenced.

It is being rumored that Foundation Co. of New York is to come back to Crosby and commence work on eight new shafts. When work was recently discontinued only part of the equipment was sent away. About half of it was left in storage near Crosby and it leads many people to suppose that the company will soon return. Supt. R. Jackson has made a good record in building cement shafts and has successfully encountered and overcome severe difficulties. At one time quick sand tilted his 80 foot shaft 8 inches from the perpendicular and heavy jack screws were placed at the bottom of the hole and after a month's work the heavy steel and concrete tube was swung to its proper place. The engineering problems have been many and varied and it took a man of Mr. Jackson's originality and ingenuity to overcome them.

Brink Brothers have received the cut stone for their two story brick building. The Duluth Cut Stone Co. is furnishing this material.

Bids will be let on July 25 for the sewer and water works systems. Elmer Brink is attending the water carnival at Duluth.

Mrs. R. W. Hyde, who has been seriously ill, is gradually improving. O. E. Berg, of Superior, Wis., is in the city.

Mr. Hillis, formerly the town assessor, is circulating a petition to be appointed inspector of mines of this district of the Cuyuna range. Mr. Hillis is an old miner and worked on the Mesaba range. This position is a most important one and it requires a man of experience to fill it.

A big roar has started in Crosby regarding the sudden increase in freight rates. Crosbyites are objecting vigorously to the raise in these rates as well as to the raise in passenger rates and assert that if something is not done soon to ameliorate conditions that it will cut a feature of the next political contest.

Mrs. Harry Campbell, of Duluth; Mrs. Rudolph Guth, of Hudson, Wis., and Mrs. Henry Guth are visiting Mr. and Mrs. W. A. Guth.

The residence of George H. Crosby, on Crosby Point, is rapidly nearing completion. He expects to take possession about the middle of August. Mr. and Mrs. Crosby were in town during the week inspecting the progress of the work and making necessary suggestions.

Mrs. J. P. Wray and daughter, Miss Kattie Wray, of Superior, Wis., are the guests of Mr. and Mrs. R. R. Hudson. Mrs. Wray is Mr. Hudson's sister.

A. Lovdahl has returned from Bemidji where he attended the Modern Brotherhood of America convention. He reports a pleasant time and says Bemidji is the most hospitable town outside of Crosby.

E. G. Ingalls, of the Ingalls Motor Boat Co., is attending the Duluth water carnival. This is the first vacation he has enjoyed for some time.

The Y. M. C. A. boys, of Duluth, are expected some time next week. The vanguard will arrive on Monday. The cook, the most necessary adjunct, preceded them all and is

now on the grounds on the south shore of Serpent lake.

A handsome bunaglow is to be constructed in McCarville & Tyler's addition near Minister's point and the preliminary work commenced Wednesday.

At one of the shortest school elections in the history of the United States M. F. Crosby was re-elected a director of the district.

Joe Sall went to Duluth Wednesday to attend the water carnival.

Louis, William A. and L. J. Rouch-Jean, of Minneapolis, prominent mining men of the Cuyuna range, were in Crosby Monday.

W. M. Prindle, a real estate man of Duluth, transacted business in the town Tuesday.

Capt. H. Jarchow came from Duluth Tuesday and examined his various holdings on the range.

Ike Hazlett, of Minneapolis; J. J. Meyer, of Wadena, and Julius Hage, all interested in the First National bank of Deerwood, were in town Tuesday.

W. S. Orne, the Brainerd sewing machine man, transacted business in Crosby Tuesday.

Mayor and Mrs. J. T. Hale, of Deerwood, visited Crosby in their auto this week.

P. W. Donovan and C. D. Sheldon, of Brainerd, were looking after exploration work in the vicinity during the week.

C. K. Dimmick, of Cuyuna, and County Attorney W. A. Fleming were visitors on Wednesday, making the trip in Mr. Dimmick's auto.

Mrs. W. E. Barber and daughter, Laura, are visiting relatives at St. Mathias.

Brick work on the First National bank block is two stories in height.

Mr. Young, the cement man, has cleared his ground opposite the Spalding hotel where he will erect a two story cement brick building \$5 by 50 feet in size.

The council at its last meeting July 11th resolved to take a 30 days vacation, enough to carry them through the hot weather.

Mr. and Mrs. Daniel Waite, of Deerwood, were Crosby visitors during the week.

Drills have been placed on Ole Erickson's farm one and a quarter miles north of Crosby. It looks highly probable that the popular ex-sheriff will soon blossom out into an iron magnate.

Antoine Giovannetta is erecting a two story brick building, north of the Spalding hotel.

Lois Plut, of Nasawauk, is erecting a large frame building north of the Gaylord residence.

A handsome girl baby was born to Mr. and Mrs. Douglas Cunningham on July 15, 1911.

A pretty daughter was born to Mr. and Mrs. William Cowling on June 24, 1911.

Mr. and Mrs. I. E. McFarland are the proud parents of a handsome girl baby who arrived on July 15, 1911.

A bouncing baby boy was born to Mr. and Mrs. Nick Loma on July 16, 1911.

J. C. Amundson visited Brainerd between trains on Tuesday.

Bruce Dower, son of John Dower, of Wadena, is working in the office of the local branch lumber yard.

James Nelson's store is being plastered.

BULLIED THE CLUB

A London Duelist Who Forced His Way Into Brooks'.

VETOED HIS OWN REJECTION.

After Having Been Balloted For and Unanimously Blackballed He Made Every Member Deny His Vote and Then Declared Himself Elected.

It was a witty bishop who once defined a club as a place "where women cease from troubling and the weary are at rest." Another amusing definition was that given by George Augustus Sala. "A club," said he, "is a weapon used by savages to keep the white woman at a distance." Nowadays, however, as Ralph Nevill remarks in his book, "London Clubs," things are different. "Within the last twenty-five years or so the spirit of London club life has entirely changed. The old fashioned clubman, whose whole life was bound up with one or other of these institutions, is now practically extinct."

Perhaps the most striking story which Mr. Nevill tells regarding Brooks' club is that concerning the famous duelist, George Robert Fitzgerald, who was executed for murder in 1786. No first class London club would admit him. His name does not appear in the club list, though he must in a sort of way be regarded as having belonged to the club. He was, however, in it only once, though it was his boast that he had been unanimously chosen a member.

Owing to Fitzgerald's well known dueling propensities no first class London club would admit him. Nevertheless he got Admiral Keith Stewart, who knew that he must fight Fitzgerald or comply, to propose him for Brooks'.

Accordingly the duelist went with the admiral on the day of the election to the clubhouse and waited downstairs while the ballot was in progress.

The result, a foregone conclusion, was unfavorable to the candidate, not even one white ball being among the black, the admiral having been among the first to deposit his. Mr. Brooks eventually went to tell Fitzgerald, who was waiting in the hall, that there was one black ball and that therefore his candidature had failed.

Thrusting aside Brooks, who protested that nonmembers might not enter the clubrooms, Fitzgerald flew upstairs and entered the room. Walking up to the fireplace, he thus addressed Admiral Stewart.

"So, my dear admiral, Mr. Brooks informs me that I have been elected three times."

"You have been balloted for, Mr. Fitzgerald, but I am sorry to say you have not been chosen," said Stewart.

"Well, then," replied the duelist, "did you blackball me?"

"My good sir," answered the admiral, "how could you suppose such a thing?"

"Oh, I supposed no such thing, my dear fellow. I only want to know who it was that dropped the black ball in by accident, as it were."

Fitzgerald now went up to each individual member and put the same question to all in turn, "Did you blackball me, sir?" until he made the round of the whole club, and in each case he received a reply similar to that of the admiral.

When he had finished his investigations he thus addressed the whole body: "You see, gentlemen, that as none of you have blackballed me I must be elected. It is Mr. Brooks who has made the mistake."

After this nothing more was said by the members, who determined to ignore the presence of their dangerous visitor, who drank three bottles of champagne in enforced silence, for no one would answer him when he spoke.

When he had gone it was agreed "that half a dozen stout constables should be in waiting the next evening to bear him off to the watch house if he attempted again to intrude, but Mr. Fitzgerald, aware probably of the reception he might get, never did."

Apocryphal blackballing. Mr. Nevill mentions the greatest instance of blackballing probably ever known, which took place some years ago at a ladies' club, where one candidate received three more black balls than the number of members present—a case of excessive zeal indeed!

The practical joker is naturally not unknown in the most solemn of clubs, and "some irrepressible jokers have paid for their love of fun by having to resign their membership. One of them, whose escapades were notorious in London twenty years ago, sitting half asleep in a certain bohemian club, became annoyed at a very red headed waiter who kept buzzing about his chair. The sight of the fiery locks was eventually too much for this wild spirit, and, darting up and seizing the man, he emptied a bottle of black ink over his head before he could escape. The result, of course, was expulsion from the club besides which very substantial compensation was rightly paid to the waiter."

CORE OF THE EARTH.

It May Be a Mass of Steel Some 5,580 Miles in Diameter.

Various conjectures have been made from time to time by geologists as to the possible condition of the center of the earth. One of the most popular impressions seems to be that the earth's center, or core, is a flaming furnace. At a meeting of the Geological association at The Hague Professor Weichert asserted that his studies of the varying velocity of earthquake tremors passing through the interior of the globe have led him to the conclusion that the earth consists of a central core of iron or steel, about 5,580 miles in diameter, surrounded with a stony shell 930 miles in thickness. Between the outer solid rind and the inner layer of rock, covering the metallic core, he thinks there is a layer of liquid or plastic material, lying a little less than twenty miles below the surface of the earth.

Men sometimes dream of enormous wealth stored deep in the earth below.

More Worry.

"I didn't know you admired that of- ficial."

"I don't," replied the political manager.

"Then why do you insist on credit- ing him with a presidential bonnet?"

"Merely to make his life harder by giving him something more to worry about."—Exchange.

Be Slow to Indorse.

"A man should think before he speaks," said the prudent youth.

"Yes," replied Dustin Stax. "And he should think still harder before he writes his name on the back of any sort of document."—Washington Star.

All Must Help.

A wise man who does not assist with his counsels, a rich man with his charity and a poor man with his labor are perfect nuisances in a common- wealth.—Swift.

ENGINEERING

F. A. GLASS—Mining Engineer and Surveyor. Direction of Explorations, surveys, plans, estimates reports.

the reach of miners, but experts now aver that there is little or no ground to believe that any valuable metallic deposits lie very deep in the earth's crust regardless of Professor Weichert's beliefs to the contrary. Such deposits, it is said, are made by underground waters, and owing to the pressure on the rocks at great depths the waters are confined to a shell near the surface. With few exceptions ore deposits become too lean to repay working below 3,000 feet. Nine mines, are ten, taking the world as a whole, are poorer in the second thousand feet than in the first thousand, and poorer yet in the third thousand than in the second.—New York World.

SWITCHED THEIR VOTES.

The Incident That Won Tom Corwin's First Fight For Congress.

"When I saw the oil painting of Tom Corwin in the treasury," said an Ohio man, "I could not but recall the story told in Corwin's old home of Lebanon of how he won his first election to congress. He was a young man and already noted as an orator, but he had a hard district and little encouragement for election. He was making his tour of the counties and one night stopped at the double cabin of a farmer known to be a very fervent advocate of political policies of the opposition. Corwin talked politics carefully with the old man and his sons before bedtime, but had little hope of winning a single vote in the household. In the morning the old man took Corwin outside and announced that every voter in the family would be for him on election day. This astonished and delighted Corwin, who could not help but ask why the sudden change of heart."

"The old man told how the opposition candidate had stopped at his house one night the week before and how the host and wife had watched the candidate go to bed. To a night town like he actually put on a nightgown like those worn by an old pioneer. Then Corwin was told how the old farmer and his wife had watched him go to bed, and as he had not bothered about a nightie they determined he was not taken to tricks. Corwin could see the humor of the incident, and in every succeeding speech he told that night-story on the other candidate, holding him up to scorn. The result was a victory for Corwin, and he owed it all to that story of a shirt."—Washington Post.

McSwiney's Gun.

Near Horn Head, County Donegal, Ireland, there is a hole in the rocks called McSwiney's gun. It is on the seacoast and is said to have connection with a cavern. When the north wind blows and the sea is at half flood the wind and the waves enter the cavern and send up jets of water from the "gun" to a height of more than 100 feet. The jets of water are accompanied by explosions which may be heard for miles.

More Worry.

"I didn't know you admired that of- ficial."

"I don't," replied the political manager.

"Then why do you insist on credit- ing him with a presidential bonnet?"

"Merely to make his life harder by giving him something more to worry about."—Exchange.

Be Slow to Indorse.

"A man should think before he speaks," said the prudent youth.

"Yes," replied Dustin Stax. "And he should think still harder before he writes his name on the back of any sort of document."—Washington Star.

All Must Help.

NEWS OF THE CUYUNA RANGE

DOCTORS MEET AT DEERWOOD

Upper Mississippi Medical Society Has Meeting Tuesday With Banquet at Adams Hotel

COUNCIL ALLOWS MANY BILLS

6 Blocks of Cement Walks to be Laid, Probably With Curbing Commencing at Block 8

Deerwood, Minn., July 20.—The Upper Mississippi Medical society had its summer meeting at Deerwood on Tuesday and the following doctors and their wives were present: Dr. and Mrs. J. A. Thabes, Dr. and Mrs. Werner Hemstead, of Brainerd; Dr. and Mrs. F. L. Wilcox, of Walker; Dr. and Mrs. Hart, of Pequot; Dr. and Mrs. Reid, of Deerwood; also Dr. Millsbaugh, of Little Falls, Dr. Walter Courtney, Dr. F. A. Groves and Dr. Ide, of Brainerd; Dr. Beardsley, of Crosby; Dr. Monahan, of International Falls; Dr. H. W. Hill, of Minneapolis; Dr. Lowthian, of Akeley. The trip on the lakes had to be abandoned owing to the inclemency of the weather. The banquet was held at the Adams hotel and Dr. Hill, of the state board of health, read an instructive paper relating to the duties of public health officers. Dr. A. C. Bosel and Miss Agnes I. Lamb furnished the splendid violin and piano music at the banquet.

At the adjourned meeting of the council recently held six block of cement walk were ordered in commencing at lots 7 and 8, block 8 at Oberg Brothers lots and extending both sides of the street of Forest Road from Clover road to Shady Walk, both sides of Shady Walk from Forest Road both sides of Cross Road from Shady Walk to the drive and on lot 4, block 14 along the north line of said lot from the drive to the shore of Serpent lake. An effort will be made to

put in curbing too. The council allowed the largest number of bills ever passed on in the history of the present body. They are as follows: M. S. Lamey, salary for June—\$60.00 1.75 J. M. Hilyar, drayage— 5.00 Deerwood Enterprise, publishing ordinance No. 9— 5.00 F. V. Berglund, chairman, quarantine services on T. F. Cole residence— 1.50 M. D. Stoner, electric lights, March and April— 120.46 M. D. Stoner, electric light May— 46.56 Cuyuna Range Hardware Co., supplies— 6.68 John Humphrey, labor on streets— 12.98 Peter J. Moe, labor on streets— 14.75 Aug. Bartens, labor on streets— 23.62 And. Hill, labor on streets— 2.62 Chris Olson— 6.72 Ben Nelson— 14.70 Adolph Lindberg— 14.17 Victor Erickson— 5.25 Norval Olson— 182.95 Andrew Hill— 5.77 Ed. Reineohl— 14.17 Claus J. Olson— 56.70 Claus J. Olson— 8.27 Harry Scar— 16.52 Andrew Christianson— 1.05 J. Haney— 14.17 J. Haney— 23.62 J. Haney— 17.72 P. A. Mlender— 2.10 Chas. Anderson— 8.40 Ed. Reineohl— 12.60 F. Anderson— 6.82 Adolph Lindberg— 9.45 Ben Nelson— 4.20 James Wood— 3.15 August Bartens— 5.25 Claus J. Olson— 6.82 Harry Scar— 11.80 Chas. Anderson— 3.60 Ed. Reineohl— 21.83 Harry Scar— 8.40 Andrew Bengtson— 9.45 Harry Scar— 23.62 Andrew Christianson— 12.07 Claus J. Olson— 42.66 H. E. Ellefson— 17.85

The council ordered that the owners of the abandoned hotel site in the first addition place a fence around the same. The street commissioner was authorized to spend \$60 to improve the road leading north to Cuyuna within Deerwood's limits. The clerk was instructed to write the county auditor about the inebriate farm assessments. The council then adjourned to Saturday, July 21.

The school election held Saturday evening caused much interest in town. The socialists had a meeting before the time set and resolved to support in a body the old set of officers which included Charles Benson, treasurer; C. B. Wright, clerk and Paul K. Wetzel, trustee. They believed that these members had assisted to inaugurate the new school house and all should remain in office until it was completed. Mr. Wetzel was the member whose term was to expire. At the meeting Dr. Reid was nominated, it is said, by C. H. Adams and declined to run as director. C. J. Rathvon was nominated by an hour's balloting the vote stood 24 for Wetzel, 1 for Adams, 1 for Dr. Reid and 1 for O. C. Coffin. Mr. Wetzel was declared re-elected.

Frank Oberg, of the Deerwood Clothing Co. has returned from a business trip to Minneapolis.

Gust Franson, of the Deerwood Iron Works, has returned from a business trip to Minneapolis.

Oberg Brothers and Bradley have engaged the Helmer Exploration Co. to drill their lands in section 19-46-29.

Salisbury Adams, a son of Cuyler Adams, was severely injured in a runaway Sunday. He was thrown

over the dash board of the buggy and had a bone of his ankle broken as well as sustaining bad bruises. Sidney Cole, a son of T. F. Cole, was tangled up in a bicycle accident this week. The rope he was carrying while riding tangled up in a sporket wheel and threw him over the handle bars, bruising him severely.

The married men of Deerwood, having won two games by 12 to 15 and 9 to 15 scores with other married men of the Cuyuna range, went up against the married men of Crosby. Victories had made them rather chummy, but they encountered their Waterloo in the neighboring town. Crosby's benedicts walloped them to the tune of 36 to 17. Every Deerwood man has a different version of the score and the above is given as the average score from figures compiled at Crosby and Deerwood. As one woman remarked: "If my husband would only do his ball playing on a Sunday and then give me a rest about the games. After a Sunday game he spends the whole week trying to tell me how they happened to get the worst of it and I have to listen to him." The single men and the married men have a game scheduled, it is reported, for Sunday morning.

A. Moork, of Aitkin, was in town looking over matters concerning the Aitkin-Deerwood Telephone Co.

John Humphrey, the lively man, has sold the Fitzer Brewing Co., of Crosby, a fine team, a black and a bay for beer delivering. The brewery company now delivers over this entire section of the Cuyuna range. The baking sale held by the Methodist Ladies Aid society at Hage's store proved so successful that another one has been planned to be held in the near future.

Contractor A. Roberts, of Duluth, is making good progress with the Deerwood school. A large shipment of pressed brick is on the way to be used in the construction of the building.

The Bay Lake Fruit Growers association shipped 300 boxes of raspberries on Wednesday evening. Berries are being sent daily to Duluth, Brainerd, Fargo, St. Paul, Minneapolis and other points.

Miss Alice Rutney, of Bay Lake, is visiting Marshal and Mrs. M. S. Lamey.

Motley, which recently played in Deerwood, is considered to be one of the most gentlemanly ball teams that ever visited the town. There was absolutely no kicking by the players during or after the game. They raised no disturbances and every one in the town commented on it.

RICH ORE STRIKE NEAR IRONTON

George H. Crosby, Working Two Drills in Section 10-46-29, Makes Great Discovery

TWO MORE DRILLS RUSHED ON

Ironton and Crosby Are Each to Have a Four Room Modern School Building

Ironton, Minn., July 20.—News of a rich iron ore strike electrified the Cuyuna range today when it became known about that George H. Crosby, who has done so much to develop the range on the north, had struck rich ore near Ironton and close to Crosby in the southwest quarter of the northeast quarter of section 10-46-29. Two new drills are reported to have been immediately purchased by Mr. Crosby and rushed on to the scene of activity.

Fourth street is being opened up to West Park addition connecting with Oak street and on through Gaylord & Guth's addition to the dock of the Ingalls Motor Boat Co. on Serpent lake.

Ironton will soon have a modern four room school house similar in design to the one to be built in Crosby. Plans are now being drawn for the structure.

Many new streets are being opened up in West Park addition lying east of and adjoining Ironton.

John Helmer, the veteran mining man and explorer, has removed all his drills from the Mesaba range to the Cuyuna range, and they are now all busily at work.

The Helmer Exploration Co. has put on an extra drill in section 3-44-29 for the Cuyuna-Mille Laes Iron Co., and things are reported to look very encouraging for the company.

Chinese Music. The notes of Chinese music read, like the written characters, from right to left, and the intervals of the scale are different from those of the scale adopted by the nations of the west. The music is not very harmonious and sounds meaningless and jangling to western ears, but it has a pretty musical cadence that makes it attractive and interesting in spite of its frequent discords.

Oldest Royal Dynasty. The oldest royal dynasty in the world is that of Japan, which goes back unbroken for 2,000 years.

PRIZE FOR GOOD CROSBY SLOGAN

Crosby Commercial Club Offers \$5 for the Most Appropriate Slogan for the Town

ROAR ABOUT FREIGHT RATES

Much exploration Work Near Crosby—Drifting Being Done at Armour No. 1 Mine

Crosby, Minn., July 20.—The Commercial Club met on Monday evening and decided to give \$5 as a prize to the person suggesting the best slogan for the town of Crosby. Something distinctive and catchy is wanted, something which will attract the attention of a man who hears of Crosby for the first time. Replies may be sent the secretary of the Commercial club, Duluth, it will be remembered had a slogan contest started by the Duluth Herald and several million suggestions were received from all over the country. "Do It For Duluth" was chosen. Minneapolis has "Minneapolis Makes Good." Brainerd has one, "Boost For Brainerd," suggested by a newspaper man. The Commercial club recommended further the publishing of envelopes advertising the town. A committee was appointed to look up club rooms for the winter.

Foundation work has been completed on the 10 houses which George H. Crosby is building in Lake Park division. They have all been taken up by prospective residents before the houses have been completed which is a good indication of the way Crosby is becoming a city of homes. The dwellings are of five and six room pattern.

At the Armour mine the miners are engaged in drifting. It is said a 300 foot drift will be run. Every drift at a new level means so many more high paid workmen put to work and helps the range and the town.

A visitor at Crosby occasionally hear a deep, reverberating boom like a sunset gun fired in some places. It is a blast being set off in the Thompson mine which is going through solid rock in its shaft. At a recent blast rocks flew 115 feet in the air straight up the shaft to the surface. As soon as the Inland Steel Co. reaches the proper depth drifting will be commenced.

It is being rumored that Foundation Co. of New York is to come back to Crosby and commence work on eight new shafts. When work was recently discontinued only part of the equipment was sent away. About half of it was left in storage near Crosby and it leads many people to suppose that the company will soon return. Supt. R. Jackson has made a good record in building cement shafts and has successfully encountered and overcome severe difficulties. At one time quick sand tilted his 80 foot shaft 8 inches from the perpendicular and heavy jack screws were placed at the bottom of the hole and after a month's work the heavy steel and concrete tube was swung to its proper place. The engineering problems have been many and varied and it took a man of Mr. Jackson's originality and ingenuity to overcome them.

Brink Brothers have received the cut stone for their two story brick building. The Duluth Cut Stone Co. is furnishing this material. Bids will be let on July 25 for the sewer and water works systems. Elmer Brink is attending the water carnival at Duluth. Mrs. R. W. Hyde, who has been seriously ill, is gradually improving. O. E. Berg, of Superior, Wis., is in the city. Mr. Hillis, formerly the town assessor, is circulating a petition to be appointed inspector of mines of this district of the Cuyuna range. Mr. Hillis is an old miner and worked on the Mesaba range. This position is a most important one and it requires a man of experience to fill it.

A big roar has started in Crosby regarding the sudden increase in freight rates. Crosbyites are objecting vigorously to the raise in these rates as well as to the raise in passenger rates and assert that if something is not done soon to ameliorate conditions that it will cut a feature of the next political contest.

Mrs. Harry Campbell, of Duluth; Mrs. Rudolph Guth, of Hudson, Wis., and Mrs. Henry Guth are visiting Mr. and Mrs. A. Guth. The residence of George H. Crosby, on Crosby Point, is rapidly nearing completion. He expects to take possession about the middle of August. Mr. and Mrs. Crosby were in town during the week inspecting the progress of the work and making necessary suggestions.

Mrs. J. P. Wray and daughter, Miss Kittle Wray, of Superior, Wis., are the guests of Mr. and Mrs. R. R. Hudson. Mrs. Wray is Mr. Hudson's sister.

A. Lovdahl has returned from Bemidji where he attended the Modern Brotherhood of America convention. He reports a pleasant time and says Bemidji is the most hospitable town outside of Crosby.

E. G. Ingalls, of the Ingalls Motor Boat Co., is attending the Duluth water carnival. This is the first vacation he has enjoyed for some time.

The Y. M. C. A. boys, of Duluth, are expected some time next week. The vanguard will arrive on Monday. The cook, the most necessary adjunct, preceded them all and is

now on the grounds on the south shore of Serpent lake.

A handsome bunaglow is to be constructed in McCarville & Tyler's addition near Minister's point and the preliminary work commenced Wednesday.

At one of the shortest school elections in the history of the United States M. F. Crosby was re-elected a director of the district.

Joe Sall went to Duluth Wednesday to attend the water carnival. Louis, William A. and L. J. Rouchau, of Minneapolis, prominent mining men of the Cuyuna range, were in Crosby Monday.

W. M. Prindle, a real estate man of Duluth, transacted business in the town Tuesday.

Capt. H. Jarchow came from Duluth Tuesday and examined his various holdings on the range.

Ike Hazlett, of Minneapolis; J. J. Meyer, of Wadena, and Julius Hage, all interested in the First National bank of Deerwood, were in town Tuesday.

W. S. Orne, the Brainerd sewing machine man, transacted business in Crosby Tuesday.

Mayor and Mrs. J. T. Hale, of Deerwood, visited Crosby in their auto this week.

P. W. Donovan and C. D. Sheldon, of Brainerd, were looking after exploration work in the vicinity during the week. C. K. Dimmick, of Cuyuna, and County Attorney W. A. Fleming were visitors on Wednesday, making the trip in Mr. Dimmick's auto.

Mrs. W. E. Barber and daughter, Laura, are visiting relatives at St. Mathias.

Brick work on the First National bank block is two stories in height. Mr. Young, the cement man, has cleared his ground opposite the Spalding hotel where he will erect a two story cement brick building 85 by 50 feet in size.

The council at its last meeting July 11th resolved to take a 30 days vacation, enough to carry them through the hot weather.

Mr. and Mrs. Daniel Waite, of Deerwood, were Crosby visitors during the week.

Drills have been placed on Ole Erickson's farm one and a quarter miles north of Crosby. It looks highly probable that the popular ex-sheriff will soon blossom out into an iron magnate.

Antoine Giovanetta is erecting a two story brick building, north of the Spalding hotel.

Lois Platt, of Nasawauk, is erecting a large frame building north of the Gaylord residence.

A handsome girl baby was born to Mr. and Mrs. Douglas Cunningham on July 15, 1911.

A pretty daughter was born to Mr. and Mrs. William Cowling on June 24, 1911.

Mr. and Mrs. I. E. McFarland are the proud parents of a handsome girl baby who arrived on July 15, 1911.

A bouncing baby boy was born to Mr. and Mrs. Nick Loma on July 14, 1911.

J. C. Amundson visited Brainerd between trains on Tuesday.

Bruce Dover, son of John Dover, of Wadena, is working in the office of the local branch lumber yard. James Nelson's store is being plastered.

BOUND OVER TO GRAND JURY

Matt Hill, of Cuyuna, Who Stabbed Frank Furst, is Taken to Brainerd

A HEARING ON WEDNESDAY

County Attorney Fleming in Attendance and Six Witnesses Were Examined by Him

Cuyuna, Minn., July 20.—The first hearing in the alleged stabbing affray committed at Cuyuna was held Wednesday before Justice of the Peace W. M. Ham and County Attorney W. A. Fleming, of Brainerd, conducted the examination. Frank Furst, who is alleged to have been stabbed by Matt Hill in a drunken encounter, lies at the Cuyuna hospital recovering from the effects of a slash in the back and one near the abdomen. The testimony of Dr. Sewall, of the hospital and five witnesses to the fight were heard and Matt Hill, who is said to have committed the crime, was bound over to the grand jury on the charge of committing an assault with a dangerous weapon. Since committing the crime he has been confined in the Deerwood jail where Marshal Lamey said he was a model prisoner. He smoked a little and wrote long letters to his sweetheart. Hill maintained that the fight resulted from constant quarrelling on the part of Furst who was looking for trouble. The case will be heard at the December term of court in the county.

H. K. Dimmick, the real estate man, took the County Attorney Fleming for a good view of the mining and exploration work in the vicinity.

Crosby and Cuyuna will play a hot game of ball here on Sunday, July 23. A large crowd is anticipated from Crosby, Ironton and Deerwood.

Then He Got His. She—I consider, John, that sheep are the stupidest creatures living. He (absentmindedly)—Yes, my lamb!

BULLIED THE CLUB

A London Duelist Who Forced His Way Into Brooks'

VETOED HIS OWN REJECTION.

After Having Been Balloted For and Unanimously Blackballed He Made Every Member Deny His Vote and Then Declared Himself Elected.

It was a witty bishop who once defined a club as a place "where women cease from troubling and the weary are at rest." Another amusing definition was that given by George Augustus Sala. "A club," said he, "is a weapon used by savages to keep the white woman at a distance." Nowadays, however, as Ralph Nevill remarks in his book, "London Clubs," things are different. "Within the last twenty-five years or so the spirit of London club life has entirely changed. The old fashioned clubman, whose whole life was bound up with one or other of these institutions, is now practically extinct."

Perhaps the most striking story which Mr. Nevill tells regarding Brooks' club is that concerning the famous duelist, George Robert Fitzgerald, who was executed for murder in 1786. No first class London club would admit him. His name does not appear in the club list, though he must in a sort of way be regarded as having belonged to the club. He was, however, in it only once, though it was his boast that he had been unanimously chosen a member.

Owing to Fitzgerald's well known dueling propensities no first class London club would admit him. Nevertheless he got Admiral Keith Stewart, who knew that he must fight Fitzgerald or comply, to propose him for Brooks'.

Accordingly the duelist went with the admiral on the day of the election to the clubhouse and waited downstairs while the ballot was in progress.

The result, a foregone conclusion, was unfavorable to the candidate, not even one white ball being among the black, the admiral having been among the first to deposit his. Mr. Brooks eventually went to tell Fitzgerald, who was waiting in the hall, that there was one black ball and that therefore his candidature had failed.

Thrusting aside Brooks, who protested that nonmembers might not enter the clubrooms, Fitzgerald flew upstairs and entered the room. Walking up to the fireplace, he thus addressed Admiral Stewart.

"So, my dear admiral, Mr. Brooks informs me that I have been elected three times."

"You have been balloted for, Mr. Fitzgerald, but I am sorry to say you have not been chosen," said Stewart.

"Well, then," replied the duelist, "did you blackball me?"

"My good sir," answered the admiral, "how could you suppose such a thing?"

"Oh, I supposed no such thing, my dear fellow. I only want to know who it was that dropped the black ball in by accident, as it were."

Fitzgerald now went up to each individual member and put the same question to all in turn. "Did you blackball me, sir?" until he made the round of the whole club, and in each case he received a reply similar to that of the admiral.

When he had finished his investigations he thus addressed the whole body: "You see, gentlemen, that as none of you have blackballed me I must be elected. It is Mr. Brooks who has made the mistake."

After this nothing more was said by the members, who determined to ignore the presence of their dangerous visitor, who drank three bottles of champagne in enforced silence, for no one would answer him when he spoke.

When he had gone it was agreed "that half a dozen stout constables should be in waiting the next evening to bear him off to the watch house if he attempted again to intrude, but Mr. Fitzgerald, aware probably of the reception he might get, never did."

Apocryphal blackballing. Mr. Nevill mentions the greatest instance of blackballing probably ever known, which took place some years ago at a ladies' club, where one candidate received three more black balls than the number of members present—a case of excessive zeal indeed!

The practical joker is naturally not unknown in the most solemn of clubs, and "some irrepressible jokers have paid for their love of fun by having to resign their membership. One of them, whose escapades were notorious in London twenty years ago, sitting half asleep in a certain bohemian club, became annoyed at a very red headed waiter who kept buzzing about his chair. The sight of the fiery locks was eventually too much for this wild spirit, and during up and seizing the man, he emptied a bottle of black ink over his head before he could escape. The result, of course, was expulsion from the club besides which very substantial compensation was rightly paid to the waiter."

CORE OF THE EARTH.

It May Be a Mass of Steel Some 5,580 Miles in Diameter.

Various conjectures have been made from time to time by geologists as to the possible condition of the center of the earth. One of the most popular impressions seems to be that the earth's center, or core, is a flaming furnace. At a meeting of the Seismological association at The Hague Professor Welchert asserted that his studies of the varying velocity of earthquake tremors passing through the interior of the globe have led him to the conclusion that the earth consists of a central core of iron or steel, about 5,580 miles in diameter, surrounded with a stony shell 930 miles in thickness. Between the outer solid and the inner layer of rock, covering the metallic core, he thinks there is a layer of liquid or plastic material, lying a little less than twenty miles below the surface of the earth. Men sometimes dream of enormous wealth stored deep in the earth below

ENGINEERING

F. A. GLASS—Mining Engineer and Surveyor. Direction of Explorations, surveys, plans, estimates reports.

one ranch of miners, but experts now aver that there is little or no ground to believe that any valuable metallic deposits lie very deep in the earth's crust regardless of Professor Welchert's beliefs to the contrary. Such deposits, it is said, are made by underground waters, and owing to the pressure on the rocks at great depths the waters are confined to a shell near the surface. With few exceptions ore deposits become too lean to repay working below 3,000 feet. Nine mines in ten, taking the world as a whole, are poorer in the second thousand feet than in the first thousand, and poorer yet in the third thousand than in the second.—New York World.

SWITCHED THEIR VOTES.

The Incident That Won Tom Corwin's First Fight For Congress.

"When I saw the old painting of Tom Corwin in the treasury," said an Ohio man, "I could not but recall the story told in Corwin's old home of Lebanon of how he won his first election to congress. He was a young man and already noted as an orator, but he had a hard district and little encouragement for election. He was making his tour of the counties and one night stopped at the double cabin of a farmer known to be a very fervent advocate of political policies of the opposition. Corwin talked politics carefully with the old man and his sons before bedtime, but had little hope of winning a single vote in the household. In the morning the old man took Corwin outside and announced that every voter in the family would be for him on election day. This astonished and delighted Corwin, who could not help but ask why the sudden change of heart.

"The old man told how the opposition candidate had stopped at his house one night the week before and how the host and wife had watched the candidate go to bed. To their disgust, he actually put on a nightgown like those worn by a woman. This disgusted the rugged old pioneer. Then Corwin was told how the old farmer and his wife had watched him go to bed, and as he had not bothered about a nightie they determined he was not taken to trials. Corwin could see the humor of the incident, and in every succeeding speech he told that night-shirt story on the other candidate, holding him up to scorn. The result was a victory for Corwin, and he owed it all to that story of a shirt."—Washington Post.

McSwiney's Gun.

Near Horn Head, County Donegal, Ireland, there is a hole in the rocks called McSwiney's gun. It is on the southeast and is said to have connection with a cavern. When the north wind blows and the sea is at half flood the wind and the waves enter the cavern and send up jets of water from the "gun" to a height of more than 100 feet. The jets of water are accompanied by explosions which may be heard for miles.

More Worry.

"I didn't know you admired that official." "I don't," replied the political manager. "Then why do you insist on crediting him with a presidential boot?" "Merely to make his life harder by giving him something more to worry about."—Exchange.

Be Slow to Indorse.

"A man should think before he speaks," said the prudent youth. "Yes," replied Dustin Stax. "And he should think still harder before he writes his name on the back of any sort of document."—Washington Star.

All Must Help.

A wise man who does not assist with his counsel, a rich man with his charity and a poor man with his labor are perfect nuisances in a commonwealth.—Swift.
